ROLES AND RESPONSIBILITIES ("R&R")

RISE with SAP S/4HANA Cloud, private edition and SAP ERP, tailored option
v.3-2025

PUBLIC

MARCH 2025

© 2025 SAP SE. All rights reserved

© 2025 SAP SE or an SAP affiliate company. All rights reserved.

No part of this publication may be reproduced or transmitted in any form or for any purpose without the express permission of SAP SE or an SAP affiliate company.

The information contained herein may be changed without prior notice. Some software products marketed by SAP SE and its distributors contain proprietary software components of other software vendors. National product specifications may vary.

These materials are provided by SAP SE or an SAP affiliate company for informational purposes only, without representation or warranty of any kind, and SAP or its affiliated companies shall not be liable for errors or omissions with respect to the materials. The only warranties for SAP or SAP affiliate company products and services are those that are set forth in the express warranty statements accompanying such products and services, if any. Nothing herein should be construed as constituting an additional warranty.

FIVE CATEGORIES: For avoidance of doubt, all of the tasks and services itemized in this Roles & Responsibilities document are provided as a catalog of services. However, the relevance and necessity of each individual task or service will be unique to each customer's Computing Environment. Customers are responsible to review and analyze these tasks and make the selection of such tasks/services in collaboration with an SAP Cloud Architect Advisor ("CAA"), with a SAP Client Delivery Manager ("CDM"), or with the Private Cloud customer center team. Additionally, the availability of a specific service may also be limited for sandbox or other test environments.

Standard Services	All tasks/services that are included as part of the Standard Services, covered by the Service Fee and performed by SAP ² , as applicable to customer.
Optional Services	Optional Services: these tasks/services are not covered in the Standard Services, and are not and cannot be covered by the Cloud Application Services ¹ ("CAS"). These tasks/services • may be elected by customer, • are subject to additional service fees, • must be specifically contracted for and itemized in the customer's contract (original contract or via a change request), and • can only be performed by SAP².
Additional Service	Additional Service: Include one-off tasks/services which are not covered by Standard, Optional and/or Cloud Application Services. These tasks/services • may be elected by customer, • are subject to additional service fees and • can only be performed by SAP².
SAP Cloud Application Services¹ ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Cloud Application Services ¹ ("CAS"). Can be performed by customer: Include tasks/services that a customer can perform, but the customer may elect to have SAP ² to deliver. CAS is subject to additional service fees as agreed in a customer's contract.
Excluded Tasks	Excluded Tasks are those tasks/services that can only be performed by the customer and are excluded from Standard Services, Optional Services, Additional Services and/or Cloud Application Services.

¹ **Cloud Application Services ("CAS")** is a category of supplementary services identified as Cloud Application Services ("CAS") in this document. CAS is subject to additional service fees as agreed in a customer's contract. CAS excludes all services involving the extension, reduction, or change of the customer's existing landscape, e.g. provisioning additional infrastructure resources. SAP may provide CAS services in either proactive or reactive mode. For SAP to provide services in a reactive mode, the customer is required to submit CAS service requests to SAP via the ticketing/service request system made available to customer for such purpose.

² The term "**SAP**" when used herein refers to SAP as defined in the customer Order Form, and means either SAP or the relevant SAP third party provider or subcontractor.

Not all tasks or services listed in the R&R are relevant to all customer environments. **Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler).** Certain tasks or services may not be available from SAP or certain SAP third party providers, and may not be available in certain regions. The availability of a specific service may also depend on characteristics of the specific customer situation (e. g. system size, solution scope etc.) and must be individually checked and confirmed with an SAP Cloud Architect Advisor ("CAA"), an SAP Client Delivery Manager ("CDM"), or with the Private Cloud customer center team.

All tasks and work efforts not purchased by customer or not provided SAP as part of the standard service but applicable to customer and its Computing Environment are the responsibility of customer.

The PDF version of this **Roles & Responsibilities** document made available by SAP at <https://www.sap.com/about/agreements/policies/hec-services.html> at is the Documentation of record. Customer acknowledges that a non-pdf version of this Roles & Responsibilities document may be made available for task analysis, task planning and overall customer task management purposes, but such version shall not be considered Documentation.

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
			All task descriptions exclusively refer to the execution of the respective task and are exclusive of potentially required hardware or infrastructure capacities (e.g. compute, storage, network connectivity etc.). Any extension to such entities is required to be processed via a contractual change request (CR) and is subject to additional service fees. Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler). Tasks are applicable only to systems managed by the service provider unless otherwise explicitly noted. The availability of a specific service may also be limited for sandbox or other test environments.	Where indicated, additional process flow information is available for selected services and can be viewed on the SAP Help Portal .	-	-
1		A - Service Management	For accounts delivered by a Premium Partner, certain tasks in chapter "A - Service Management" are a joint effort between SAP and that Premium Partner.		-	-
2		Account Management			-	-
3	SM_1.1.01	Conduct Delivery and Operations Kick-Off -Review Support Manual -Landscape Review and Scope Alignment -Detailed Engagement and Operations Review	Standard Services		n/a	n/a
4	SM_1.1.02	Capacity Management Review: Provide data via report and/or self-service reporting tool for review of systems within landscape, monitoring, and reporting of resource usage (e.g. storage capacity, memory and CPU) to prevent operational issues. Review need for service changes and extensions based on technical resource consumption trends.	Standard Services		n/a	n/a
5	SM_1.1.03	Capacity Management Planning: Provide periodic capacity plan based on technical capacity management review	Standard Services		n/a	n/a
6	SM_1.1.04	System outage notification and escalation management	Standard Services	Handling of critical service situations aiming to bring the service back to targeted quality and standards. Provide Root Cause Analysis (RCA) for production environment(s) only.	n/a	n/a
7	SM_1.1.05	Service Performance Review and Report – Periodic - Provide review and suggestions if a high volume of support requests occurs - Service availability and KPIs	Standard Services		n/a	n/a
8		Service Request Management - Technical Support			-	-
9	SM_1.2.01	Service Request Management: - Create service requests via the service request platform - Update and resend service requests back to service provider via the service request platform when additional customer action/attention/information is required	Excluded Tasks	Change Requests (CR) or Change Orders are subject to the process defined in Agreement. Service requests which require commercial change requests (CR) or which need to be planned and coordinated are performed during customer business hours only. SAP ECS can only assist if/when the customer is unable to create, submit, and/or approve on their own. All Service Requests/Change Requests will still require customer's approval in writing (typically by email). In certain rare cases (e.g., to trigger delivery of already contracted services), SAP ECS personnel can create (but not submit) a service request in the system on behalf of the customer, however the customer must still submit the service request whether it is billable or not. The customer can also send an email confirmation that they want to submit the Service Request in which case SAP ECS personnel can also submit the request by attaching the email approval from the customer. SAP ECS personnel cannot submit a Service Request without written approval from the customer.	n/a	n/a
10	SM_1.2.09	Service Request Management - Receive and acknowledge service requests via the service request platform - Assess criticality/priority of service requests, effort and approvals required - Coordinate request approval - Notify requester of approval or rejection - Coordinate service request scheduling - Notification of service request completion	Standard Services	Provider will address service requests during the hours of operations as defined in the Service Level Agreement. Change Requests (CR) or Change Orders subject to process defined in Agreement. Service requests which require commercial change requests (CR) or which need to be planned and coordinated are performed during customer business hours only.	n/a	n/a
11	SM_1.2.11_AE	Create service plan for reoccurring and proactive CAS tasks / Create and maintain service plan for reoccurring and proactive services	Standard Services	Only applicable if CAS packages are part of the contract.	n/a	n/a
12	SM_1.2.12_AE	Create and maintain release plan for managed landscape	Standard Services	Including check for SAP software updates (SAP Release Version, SAP Support Packages, SAP kernel updates, DB version) for contracted landscape.	n/a	n/a
13		Services to support industry regulations	This section does not define a fixed-scope service package but represents an open list of possible services that can be offered to support specific compliance needs; a detailed service scope must be specified in the managed services contract; examples for industry standards that may be addressed with these services are GxP or HIPAA.		-	-
14		Qualifications Services			-	-
15	SM_1.6.02	Qualification deliverables (project and lifecycle documentation)	Optional Services		n/a	n/a
16	SM_1.6.03	Personnel qualification and training as mandatory requirement for administrator access to regulated industries systems	Optional Services		n/a	n/a
17	SM_1.6.04	Onboarding / system set-up with additional Installation Qualification	Optional Services		n/a	n/a
18		Process Services			-	-
19	SM_1.6.06	Documents and records management for regulated industries	Optional Services		n/a	n/a
20	SM_1.6.07	Change and configuration management for regulated industries	Optional Services		n/a	n/a
21	SM_1.6.08	Problem management for regulated industries	Optional Services		n/a	n/a
22	SM_1.6.09	Audits and periodic review	Optional Services		n/a	n/a
23	SM_1.6.10	System decommission for regulated industries	Optional Services		n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
		B - Managed Infrastructure				
24			Section B - Managed Infrastructure describes the infrastructure services provided for components used as part of managed systems; services around "Server Provisioning" (aka IaaS) are described in detail in the respective section. Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler).	SAP provides standard software applications that often cross industry boundaries, and because each customer has a unique set of system needs, there are numerous possibilities with regard to different types of business usages and thus sizing KPIs. In a typical sizing project, the customer perform a series of evaluations and tasks to get accurate sizing results.	.	.
25		Data Center Management			.	.
26	INFRA_1.1.01	Manage Data Center	Standard Services	This service is operated either in DC facilities owned by the respective service provider, in rented co-location facilities, public cloud, or on hyperscaler infrastructure platforms.	n/a	n/a
27		Network Management			.	.
28	INFRA_1.2.01	Manage remote connection between the managed system landscape and service provider's support infrastructure	Standard Services	Service initiated after formal transition to service provider.	n/a	n/a
29	INFRA_1.2.03	Move an existing system in a Customer landscape to new subnet for the purpose of network segregation	Additional Service	For moving or reconfiguring existing virtual machines from one subnet to another subnet. Does not include Customer Gateway Servers (CGS) - see INFRA_1.2.06 for CGS.	n/a	n/a
30	INFRA_1.2.03A	Provision additional subnets and move VMs as needed	Additional Service	Up to Two (2) additional subnets are covered as part of standard offering during the initial landscape build. Customers can request more subnets using this Additional Service if more subnets are needed during the initial network build or in an existing landscape. This service covers subnet creation for tiers such as Sandbox, DEV, QA etc. only and does not cover isolation or restrictions between subnets using SG/NSG/Firewall services; for this use INFRA_1.2.03B. Not in scope for application or DB server separation.	n/a	n/a
31	INFRA_1.2.03B	Configure communication restrictions between production and non-production tiers	Additional Service	Can be used if restrictions are needed between tiers or on-premise systems. Customer must provide communication matrix to provision restrictions (e.g. allow trans mount access across tiers; allow port 3299 from prod to QA etc.) Restriction rules (such as ACLs) are limited to Twenty (20) per customer landscape. Such restrictions between application and DB servers within a tier are not in scope not permitted. Service provider access can't be restricted. The Firewall-as-a-Service (FWaaS) offering is suggested if more restriction rules are needed.	n/a	n/a
32	INFRA_1.2.03C	Move existing virtual machine in a Customer landscape from non-zonal to zonal deployment - Azure only	Additional Service	This service is applicable only for existing customer builds with AvSets. This service allows a conversion of availability sets (non-zonal) to Availability zones. Zonal to non-zonal conversion is not offered on Azure platform. All VMs of a SID need to be converted.	n/a	n/a
33	INFRA_1.2.03D	Prepare Customer landscape for zonal migration - Azure only	Additional Service	This service is applicable only for existing customer builds with AvSets. This service allows a conversion of availability sets (non-zonal) to Availability zones. Zonal to non-zonal conversion is not offered on Azure platform. A complete customer landscape must be migrated within in Six (6) months from service start. After the landscape is prepared for zonal migration, all new builds will be zonal. New AvSet builds are not supported. Additional services may be required such as: Network GW resilience / Storage resilience - and must be checked by Customer and ordered separately.	n/a	n/a
34	INFRA_1.2.04	Modify existing customer connectivity (VPN, MPLS, Cloud Peering, ExpressRoute, Direct Connect, Interconnect, VPC/VNET Peering, etc.)	Standard Services	One (1) ticket per each feature change is required (after initial connectivity is established). Service modifications require downtime.	n/a	n/a
35	INFRA_1.2.06	IP address migration of Customer Gateway Servers (CGS) - Change IP addressing of existing network segment to new IP addressing	Additional Service	For use where the original IP range needs to be changed of a Customer Gateway Servers (CGS). Only offered in SAP data center.	n/a	n/a
36	INFRA_1.2.07	Enable DNS integration of on-premise customer domains into customer DNS servers to resolve on-premise host names	Standard Services	Standard service during initial set-up and onboarding phases only. If required after system handover use INFRA_1.2.11. Supported through DNS forwarding on the DNS server. This task does not add /etc/hosts file entries on individual servers.	n/a	n/a
37	INFRA_1.2.08	Migrate SAP domain (*.sap.biz) to customer domain or customer domain migration	Additional Service	Used in case customer wants to change from internal domain to customer domain or want to migrate existing domain to new domain due to organizational change.	n/a	n/a
38	INFRA_1.2.11	Change DNS configuration	Standard Services	DNS forwarding to Customer on-premise domains; zone transfers to multiple remote sites; and changes to existing DNS config.	n/a	n/a
39	INFRA_1.2.12	Generate shared access key for hyperscalers and allow IP	Standard Services	For brownfield migrations. Allow access to SAP ECS cloud storage to upload on-premise data for migration purposes. Establish connection between on-premise to SAP ECS cloud storage by whitelisting the on-premise public IPs.	n/a	n/a
40		Hardware Operations	Applies to equipment managed by service provider.		.	.
41	INFRA_1.4.03	Plan and conduct managed service infrastructure maintenance	Standard Services		n/a	n/a
42	INFRA_1.4.05	Monitor critical operations parameters of computing environment	Standard Services		n/a	n/a
43	INFRA_1.4.06	Monitor disk capacity	Standard Services	Subject to additional fees for additional capacity.	n/a	n/a
44	INFRA_1.4.07	Monitor server capacity	Standard Services	Subject to additional fees for additional capacity.	n/a	n/a
45	INFRA_1.4.08	Monitor network utilization	Standard Services		n/a	n/a
46	INFRA_1.4.09	Infrastructure/hardware/system requests; Process commercial change requests as required for hardware upgrades, additions etc.	Standard Services	Subject to reasonable lead time, customer to provide request via tracking system with sufficient detail; additional fees apply; service provided only during office hours (referring only to the commercial part, technical implementation timing will be scheduled based on contractual specifications).	n/a	n/a
47	INFRA_1.4.11	Scale compute capacity (memory and CPU)	Optional Services		n/a	n/a
48		Storage Management			.	.
49	INFRA_1.5.01	Manage data files, file systems and disks per standards and practices	Standard Services	Process flow - additional information available.	n/a	n/a
50	INFRA_1.5.02	Scale storage capacity	Optional Services		n/a	n/a
51	INFRA_1.5.04_AE	Review and analyze the impact of data volume/load on data environment performance	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Data Volume Optimization	D6
52	INFRA_1.5.05_AE	Determine if existing hardware can meet growth	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Data Volume Optimization	D6
53	INFRA_1.5.06_AE	Develop alternative plans (e.g. archiving, consolidation, hardware upgrades)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Data Volume Optimization	D6
54	INFRA_1.5.07	Encrypt EBS root volumes	Standard Services		n/a	n/a
55	INFRA_1.5.08	Remove SWAP disk from HANA database machines	Standard Services		n/a	n/a

ROLES AND RESPONSIBILITIES

© 2025 SAP SE or an SAP affiliate company. All rights reserved. See Legal Notice on www.sap.com/legal-notice for use terms, disclaimers, disclosures, or restrictions related to this material.

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
66		Operating System			-	-
57	INFRA_1.6.01	Create and maintain OS users and groups	Standard Services	Service provider access only, no privileged access to operating system by customer.	n/a	n/a
58	INFRA_1.6.04	Inform customer regarding security incidents	Standard Services		n/a	n/a
59	INFRA_1.6.05	Configure OS parameters	Standard Services	Used for various activities such as Time Zone parameter changes/updates.	n/a	n/a
60	INFRA_1.6.06	Troubleshoot operating system problems, monitor system log and file systems	Standard Services		n/a	n/a
61	INFRA_1.6.07	Work with OS vendor to resolve operating system issues	Standard Services		n/a	n/a
62	INFRA_1.6.08	Monitoring of swap and page areas	Standard Services		n/a	n/a
63	INFRA_1.6.09	Monitoring of memory load	Standard Services		n/a	n/a
64	INFRA_1.6.12	Software Lifecycle Management of operating system	Standard Services	Process flow - additional information available.	n/a	n/a
65		System Startup/Shutdown			-	-
66	INFRA_1.7.01	Perform scheduled startup/shutdown of computing environment	Standard Services		n/a	n/a
67	INFRA_1.7.03	Restart computing environment after failure	Standard Services		n/a	n/a
68		Backup/Restore			-	-
69		General			-	-
70	INFRA_1.8.01	Perform standard file system and database backups	Standard Services	Per standards, or according to specific terms of the Agreement.	n/a	n/a
71	INFRA_1.8.10	On-demand backup	Additional Service	Lead time for backup to be aligned in advance. This backup is not applicable for systems which are already fully backed up on a daily basis. Retention period cannot be more than contract end date. Any backup to be retained for more than Twelve (12) months must be executed as an offline database export.	n/a	n/a
72	INFRA_1.8.09	Scheduled backup (policy based and/or SKU based for PCE)	Optional Services	This service is based on the standard scheduled backup offering as described in Customer's contracted service type. For example: backups for a longer period or SKU based backups for PCE contracts. Retention period cannot be more than contract end date. Any backup to be retained more than Twelve (12) months must be executed as an offline database export. Change request required to cover extra storage requirements for the retention period. Lead times for change request processing to be factored in when ordering the service, BLOB (binary large object) storage to be factored in as per size requirements.	n/a	n/a
73	INFRA_1.8.11	Monitor backup processes	Standard Services		n/a	n/a
74	INFRA_1.8.07	Test backup/restore procedures periodically	Standard Services	This task cannot be ordered by customers. This task is used to verify procedures and operational readiness; testing is not performed for each individual system but for representative scenarios.	n/a	n/a
75	INFRA_1.8.03	Perform data restore and recovery (file system, database) as required after system failures	Standard Services		n/a	n/a
76	INFRA_1.8.02	Perform data restore and recovery (file system, database) on customer request (other reasons than as a response to system failures)	Standard Services	Up to Six (6) restores per SID, per contract year, are included.	n/a	n/a
77	INFRA_1.8.06	Validate logical integrity and consistency of restored information	Excluded Tasks		n/a	n/a
78		NFS DB Volume Consistent Snapshot and Restore	Tasks and services for NFS are restricted to existing Customers and not currently available for new Customers. Available only in an SAP Datacenter.		-	-
79	INFRA_1.13.01	Perform standard NFS DB volume snapshot	Standard Services	SAP HANA and ASE only, Per standards, or according to specific terms of the Agreement.	n/a	n/a
80	INFRA_1.13.02	Perform ad-hoc NFS DB volume consistent snapshot	Standard Services	Lead time to be aligned in advance.	n/a	n/a
81	INFRA_1.13.03	Perform exceptional ad-hoc NFS DB volume consistent snapshot	Standard Services	Example: extend retention period for a snapshot or transfer to secondary system for longer retention. Offered options are described in separate service descriptions and are subject to change; not every theoretically possible combination of snapshot frequency and retention period is offered.	n/a	n/a
82	INFRA_1.13.04	Perform DB NFS volume snapshot restore and recovery (file system, database) - as required after system failures	Standard Services	Extra charges apply for restores if caused by customer error.	n/a	n/a
83	INFRA_1.13.05	Perform DB NFS volume restore and recovery (file system, database) on customer request - reasons other than as a response to system failures	Standard Services		n/a	n/a
84	INFRA_1.13.06	Perform standard flat filesystem NFS volume snapshot (non-DB volumes)	Standard Services	Per standards, or according to specific terms of the Agreement.	n/a	n/a
85	INFRA_1.13.07	Restore standard flat filesystem NFS volume snapshot (non-DB volumes) - on customer request (other reasons than as a response to system failures)	Standard Services		n/a	n/a
86	INFRA_1.13.07A	Restore standard flat filesystem NFS volume snapshot (non-DB volumes) - as required after system failures	Standard Services		n/a	n/a
87		Infrastructure integration			-	-
88	INFRA_1.9.02	Integrate customer Active Directory, Google IdP and other identity management solutions	Excluded Tasks	Customer may engage other SAP services pertaining to SSO solutions for cloud environment.	n/a	n/a
89	INFRA_1.9.04	Provide access to systems/resources within customer infrastructure	Excluded Tasks	If required to fulfil agreed contractual obligations.	n/a	n/a
90		File transfer capabilities: CIFS shares			-	-
91	INFRA_1.10.01	Mount remote customer SMB shares locally on managed landscape Windows clients and Linux clients (aka CIFS)	Standard Services	Within contractually agreed infrastructure capacity. SMB shares on DB servers are not allowed.	n/a	n/a
92	INFRA_1.10.01A	Provide Samba Server Share on managed landscape LINUX server for remote SMB clients	Standard Services	Within contractually agreed infrastructure capacity. Samba Server Share configurations are not allowed on DB servers.	n/a	n/a
93	INFRA_1.10.03	User and access management	Standard Services	Once/initially when share is created.	n/a	n/a
94	INFRA_1.10.04	Create and maintain folder structure on shares	Standard Services		n/a	n/a
95	INFRA_1.10.05	Ensure up-to-date anti-virus protection on end user equipment connecting to the provided shares	Excluded Tasks		n/a	n/a
96	INFRA_1.10.06	Implement virus protection on server	Standard Services		n/a	n/a
97	INFRA_1.10.07	Backup of data uploaded to shares to ensure data integrity	Excluded Tasks	Customer must ensure that data which get uploaded to the CIFS shares are kept properly secured at customer end; the shares themselves are only backed up via standard file system backups not allowing point-in-time recovery.	n/a	n/a
98		Managed SFTP Server	To be installed on existing application server in managed system		-	-
99	INFRA_1.11.01	Configure sftp daemon	Standard Services	Only available on Linux. External inbound (from internet) is not permitted.	n/a	n/a
100	INFRA_1.11.02 AE	Create and maintain sftp user accounts and groups	Standard Services	Up to 10 users per server	n/a	n/a
101	INFRA_1.11.02A	Create and maintain sftp user accounts and groups - additional requests	Additional Service	Requests for additional users beyond those provided in INFRA_1.11.02 AE	n/a	n/a
102	INFRA_1.11.03	Manage file systems	Standard Services	Within contractually agreed infrastructure capacity.	n/a	n/a
103	INFRA_1.11.04	Provide user list	Excluded Tasks		n/a	n/a
104	INFRA_1.11.05	Create and delete files	Excluded Tasks		n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
105		Management of Wide Area Network			-	-
106	INFRA_1.12.01	Provide network infrastructure at customer data center/site	Excluded Tasks		n/a	n/a
107	INFRA_1.12.02	Provide network switching and ports at SAP/Partner data center to customer to connect telco equipment	Standard Services	Per SAP Guidelines, customer must ensure compatible network infrastructure at own site. Note: does not include infrastructure such as rackspace for MPLS or other devices.	n/a	n/a
108	INFRA_1.12.03	Determine appropriate size and purchase network connection between customer and managed system sites; manage telecommunication provider/ISP	Excluded Tasks		n/a	n/a
109	INFRA_1.12.04	SAP Cloud Peering: Establish a virtual connection to an SAP datacenter via a customer's interconnection provider	Standard Services	Can only be used if SAP is connected to same interconnection provider. Monthly subscription fee via Change Request based on bandwidth. Connection of customer on-premise networks to interconnection hub is performed by the customer with their selected interconnect provider. Includes up to Four (4) x 100 Mbit/s cloud peering packages equal to a total of Four Hundred (400) Mbit/s. Customer can substitute cloud peering packages with a maximum of Five (5) VPN tunnels. Redundant VPN tunnels are not available.	n/a	n/a
110	INFRA_1.12.04_PCE	Add additional SAP Cloud Peering packages - 100Mbit/s increments	Standard Services	Add additional SAP Cloud Peering packages in 100) Mbit/s increments. A total of Four (4) x 100 Mbit/s packages equal to a total of Four Hundred (400) Mbit/s is available.	n/a	n/a
111	INFRA_1.2.05_PCE	Deploy customer connectivity options in SAP Datacenters and Hyperscalers	Standard Services	Allotment is based on selected Hyperscaler. Site-to-Site VPN Connections: Azure: Five (5); Amazon Web Services (AWS): Five (5); Google Cloud Platform (GCP): Five (5); SAP Datacenter: Five (5). Note: Two (2) TB egress limit for all deployment scenarios. Private Connectivity: AWS: One (1) Direct Connect 200 Mbit/s package with 2 TB egress traffic; Azure: One (1) ExpressRoute 1 Gbit/s gateway package with 200 Mbit/s port speed and 2 TB egress traffic; GCP: One (1) (redundant) Partner Interconnect 200 Mbit/s package with 2 TB egress traffic; SAP Datacenter: One (1) MPLS local extension link of 1 or 10 G between Customer MPLS routers and SAP ECS internal routers, and One (1) Cloud Peering connection up to 400Mbps. VPC/VNet Peering: One (1) Peering. Applicable only for Hyperscalers (public cloud providers). Two (2) TB egress limit. In case of S/4HANA Cloud, private edition, base option: Currently applicable for SAP Datacenter only. Allowed options - One (1) redundant Site-to-Site VPN OR One (1) MPLS up to 1Gbps OR One (1) Cloud Peering up to 400Mbps. Customer can purchase additional connections for any connectivity requirements higher than the quantity above.	n/a	n/a
112		Firewall-as-a-Service (FWaaS)	Firewall as a Service (FWaaS) brings UTM-based firewall technology to customer landscapes on Hyperscalers and includes features such as advanced traffic filtering, intrusion prevention (IPS) and bot detection. The service is fully managed by the Service Provider, but customers will have the possibility to request new rules to be added to their firewall or existing rules deleted. Customers can also request an export of their rulebase.	FWaaS does not take over firewalling responsibilities for customers in their respective on-premise landscapes. The scope of FWaaS is to filter traffic within the SAP ECS Private Cloud Landscape where customers cannot do this by themselves. Customer are still required to filter on their side which user/server is allowed to go the landscape. FWaaS usually accepts all connectivity from customer networks as checked and trusted. FWaaS has been designed to fit easily and smoothly into new and existing environments while being as transparent to configuration efforts as possible. Customers may be required to perform some technical reconfigurations on their side.	-	-
113	FWAAS_1.1.01	Install Network Virtual Appliance	Optional Services	Base FWaaS Installation.	n/a	n/a
114	FWAAS_1.1.02	Modify firewall rulebase	Optional Services	Adding/removing rules or modifying existing rules. Requests are limited to Two (2) changes per workweek with a maximum of Ten (10) rule changes per request.	n/a	n/a
115	FWAAS_1.1.03	Export Customer rulebase	Optional Services	Limited to One (1) rulebase export per month.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
116		C1 - Database Management SAP HANA				
117		SAP HANA (general database operations)	The standard service scope specified by this version of the Roles and Responsibilities includes certain baseline features and functionalities which are part of the SAP HANA database. SAP HANA provides additional or optional features and functionalities for which related services and support are not included in the standard service scope, and may be available on an additional cost basis.	Additional and optional services to support these and future SAP HANA features and the availability of those services will be evaluated and determined by SAP on a case-by-case basis, including the assessment of associated efforts and costs. The respective standard and additional services are shown in separate sections of this document.	-	-
118	HANA_1.1.31	Provide recommendations on database release management	Standard Services	Service provider will provide guidance on recommended database releases based on operational experience and information given by SAP Product Development.	n/a	n/a
119	HANA_1.1.01	Plan and perform file system extensions for e.g. backup activities	Standard Services	Additional infrastructure consumption requires a CR.	n/a	n/a
120	HANA_1.1.02	Monitor database resource consumption to detect issues in technical operations	Standard Services	Task output feeds into capacity management; recommendations for optimization may also be provided via SAP Enterprise Support services.	n/a	n/a
121	HANA_1.1.03	Monitor table growth to proactively prevent operational issues and ensure that the service stays within the contractual sizing boundaries	Standard Services	Storage capacity is specified in the service description. Monitoring and alerting is performed through automated system. Recommendations for limitation of data growth may also be provided via SAP Enterprise Support services.	n/a	n/a
122	HANA_1.1.25	Design table partitioning strategy/architecture	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Only available as part of a Cloud Application Service package and cannot be requested as a standalone task. Requires lead-time for analysis, planning, and coordination between the Customer and Service Provider delivery team.	Data Lifecycle Management	D3
123	HANA_1.1.04	Partition tables (technical execution)	Standard Services	If required as a consequence of extensive table growth; One (1) execution in One (1) table per SID, per year included; any further requests will be charged separately	n/a	n/a
124	HANA_1.1.35	Partition tables (technical execution) - additional requests	Additional Service	Efforts for additional table partition requests.	n/a	n/a
125	HANA_1.1.36	Database table redistribution based on the table placement rules (Technical Execution)	Standard Services	For requirements involving application dependency (e.g. Moving tables and table partitions manually from one host to another).	n/a	n/a
126	HANA_1.1.05	Perform rowstore / column store migration: technical execution only	Standard Services	Per customer request. Executing party to be mutually agreed between the service provider and customer; migration of larger SAP tables to be done by service provider; customer should perform task on own tables if desired; additional downtime required per customer approval.	n/a	n/a
127	HANA_1.1.37	Database Defragmentation (Data Volume Reclamation)	Standard Services		n/a	n/a
128	HANA_1.1.38	Row Store reorganization	Standard Services		n/a	n/a
129	HANA_1.1.06	Monitor database for technical issues; analyze and resolve technical database failures	Standard Services		n/a	n/a
130	HANA_1.1.07	Clean-up HANA log and trace files (traces, statistic files etc.) to free up capacity and keep HANA system clean and healthy	Standard Services		n/a	n/a
131	HANA_1.1.08	Maintain technical configuration parameters for SAP HANA and SAP HANA XS based on standards and recommendations	Standard Services		n/a	n/a
132	HANA_1.1.09	Start/stop database	Standard Services		n/a	n/a
133	HANA_1.1.10	Add/remove SAP HANA node to adjust SAP HANA capacity	Optional Services	For HANA scale-out configurations only.	n/a	n/a
134	HANA_1.1.28	Create additional schema for existing SAP HANA datamart	Standard Services		n/a	n/a
135	HANA_1.1.26	Change SAP HANA database architecture (single node to multi node or vice versa)	Optional Services	Single node to multi node and vice-versa requires additional steps such as adding/removing HANA services and would be treated as a hardware migration.	n/a	n/a
136	HANA_1.1.11	Manage standby databases (HANA System Replication) for high availability	Standard Services	Performed only for productive systems; only if dedicated standby databases are explicitly included as part of the solution in the contract. Not in scope for multi-node set-ups. Failover tests are not performed on a regular basis per system.	n/a	n/a
137	HANA_1.1.12	Update SAP HANA database software	Standard Services	Additional downtime for maintenance required; Systems with HA nodes include the use of advanced update approaches by default such as ZDO/Downtime Minimization. The term "update" denotes the change to a new minor release of the hosted SAP software, typically focused on bug fixes and small enhancements. DB client updates are merged with the SAP application kernel update method.	n/a	n/a
138	HANA_1.1.12A	Install or Update SAP HANA client	Standard Services	Install or update SAP HANA client software on application instances and non SAP HANA systems. Applicable for Production and Non-Production systems.	n/a	n/a
139	HANA_1.1.33	SAP HANA version upgrade and update of DB Client	Standard Services	HANA systems to HANA MDC system with latest support pack levels, and with replication mode set to CLR. The term "version upgrade" denotes the change to a new major release of the hosted SAP software, typically including functional enhancements.	n/a	n/a
140	HANA_1.1.22	SAP HANA Transports Management Set-up	Standard Services	Limited to the setup of the transport management system and does not include ongoing operation of the transport management system.	n/a	n/a
141	HANA_1.1.14	Implement / maintain additional SAP tools (e.g. SAP HANA Analytics Foundation Browser)	Standard Services	Depending on customer requirements; only for tools in the HANA context delivered by SAP, 3rd party tools not covered.	n/a	n/a
142	HANA_1.1.15	Identify, analyze and optimize expensive SQL-statements to improve application performance	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Performance Optimization or Database Performance Management	P2, P3
143	HANA_1.1.16	System troubleshooting, e.g. blocked transactions, to overcome issues and bring SAP HANA back to normal state of operations	Standard Services		n/a	n/a
144	HANA_1.1.17	Create/modify users for HANA modelling in the SAP HANA Studio	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
145	HANA_1.1.18	User, roles, and permissions management for non-technical users	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Customer has ownership and responsibility for SAP HANA role CUST_USER_ROLE_ADMIN.	Application Operations or Secure Users & Authorizations	A1, S2
146	HANA_1.1.19	User, roles and permissions management for technical and administration users	Standard Services	Process flow - additional information available. Technical users: e.g. users delivered and used by SAP HANA. This service is only for internal Users created by service provider e.g. SAPSID / SAPABAP1 / SAPHANADB.	n/a	n/a
147	HANA_1.1.20	Perform database backups (regular full backups and log backups)	Standard Services	Per backup policy.	n/a	n/a
148	HANA_1.1.21	Restore and recover SAP HANA after technical issues	Standard Services		n/a	n/a
149	HANA_1.1.30	Perform database consistency check (DBCC)	Standard Services		n/a	n/a
150	HANA_1.1.32	Export/Import of database schema	Excluded Tasks		n/a	n/a
151	HANA_1.1.23	Implement SAP HANA database encryption on SAP HANA database already installed during Operations	Standard Services	Enable encryption on systems in operation. Downtime should not be required but may be in extreme cases; potential additional storage consumption is subject to a change request (CR). Applicable for SAP HANA Platform 2.0 SPS 07 or higher systems. Downtime may be needed for lower versions.	n/a	n/a
152	HANA_1.1.24	Implement SAP HANA database encryption on SAP HANA database already installed during Build	Standard Services	Encryption enabled by default for SAP HANA Platform 2.0 SPS 07 or higher systems. For SAP HANA Platform 2.0 SPS 05, encryption enabled at system build only if it has been requested.	n/a	n/a
153	HANA_1.1.39	Implement SAP HANA log encryption on SAP HANA database already installed	Standard Services		n/a	n/a
154	HANA_1.1.40	Configure Secure Communication on SAP HANA System Replication (HSR)	Standard Services	Available by default in HANA 2.0. Explicitly required only for HANA 1.0 where EarlyWatch Alert recommends to secure System Replication communication or a Tenant needs to be moved to another system.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
159		SAP HANA XS			.	.
160	HANA_1.2.01	Maintain technical configuration parameters for SAP HANA XS based on SAP standards and recommendations	Standard Services		n/a	n/a
161	HANA_1.2.02	Maintain Application Runtime Configurations	Standard Services		n/a	n/a
162	HANA_1.2.03	Manage Trust Relationships	Standard Services		n/a	n/a
163	HANA_1.2.04	Maintain SAML Providers	Standard Services		n/a	n/a
164	HANA_1.2.05	Maintain SMTP Server Configurations	Standard Services		n/a	n/a
165	HANA_1.2.06	Maintain HTTP Access to SAP HANA	Standard Services		n/a	n/a
166	HANA_1.2.08	Maintain User Self Service Tools	Standard Services		n/a	n/a
167	HANA_1.2.09	Schedule XS Jobs	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
168	HANA_1.2.11	Maintain HTTP Traces for SAP HANA XS Applications	Standard Services		n/a	n/a
169		SAP HANA XSA	SAP HANA XSA is a separate technical component and not part of a standard installation of an SAP HANA database; SAP HANA XSA needs to be explicitly included/scoped in the initial contract or subsequent Change Request (CR).		.	.
170	HANA_1.9.01	Install along with HANA Server	Optional Services		n/a	n/a
171	HANA_1.9.02	Install XSA Components as an add-on for already installed HANA Server	Optional Services		n/a	n/a
172	HANA_1.9.04	Set-up/Configure XSA for HANA Development at customer side	Excluded Tasks		n/a	n/a
173	HANA_1.9.05	Configure XS-CLI Tool for HANA Development	Excluded Tasks		n/a	n/a
174	HANA_1.9.06	User management for HANA Development	Excluded Tasks		n/a	n/a
175	HANA_1.9.07	Monitoring of XSA services and its applications	Standard Services	Super set will be included in monitoring if selected.	n/a	n/a
176	HANA_1.9.08	Set-up Logical database (Register Tenant Database)	Standard Services		n/a	n/a
177	HANA_1.9.10	Backup and restore of XSA specific files	Standard Services		n/a	n/a
178	HANA_1.9.11	Web Dispatcher configuration for the applications installed by service provider and built by customers	Standard Services		n/a	n/a
179	HANA_1.9.13	Support customer built applications	Excluded Tasks		n/a	n/a
180	HANA_1.9.14	Availability monitoring of customer built applications	Excluded Tasks		n/a	n/a
181	HANA_1.9.15	Backup of custom applications if using file system storage	Standard Services		n/a	n/a
182	HANA_1.9.16	Restore of customer built applications using file system storage provided the backup has been enabled prior	Standard Services		n/a	n/a
183	HANA_1.9.17	Post-restore task checking and connection of custom applications	Excluded Tasks		n/a	n/a
184	HANA_1.9.18	HANA XS (XS classic) to XSA model conversion	Additional Service		n/a	n/a
185	HANA_1.9.19	Upgrade XSA	Standard Services	Includes add-ons.	n/a	n/a
186	HANA_1.9.20	Customer-specific pre and post-activity for XSA upgrades	Excluded Tasks		n/a	n/a
187		SAP HANA: Smart Data Integration (Formerly Enterprise Information Management - EIM)	Extended feature beyond the standard service scope.		.	.
188		Set-up - Technical Set-up Only - Does Not Include Application Set-up			.	.
189	TO_HANA_SDI_1.1.01	Enable Data Provisioning Server	Standard Services	The Data Provisioning Server is a native SAP HANA process. It is built as an index server variant, runs in the SAP HANA cluster, and is managed and monitored just like other SAP HANA services. The Data Provisioning Server is installed with, but must be enabled in, the SAP HANA Server.	n/a	n/a
190	TO_HANA_SDI_1.1.02A	Install, configure, and register Data Provisioning Agents	Standard Services	DP Agents are provisioned for each tier of the customer landscape. For additional DP Agents see TO_HANA_SDI_1.1.02.	n/a	n/a
191	TO_HANA_SDI_1.1.02	Install, configure, and register Data Provisioning Agents - Additional Agents	Optional Services	For additional DP Agents. Requested for High-Availability (HA) setup.	n/a	n/a
192	TO_HANA_SDI_1.1.04	Set-up Smart Data Quality (SDQ)	Optional Services	Deploy SDQ, download Address and Data Cleansing package from the SAP Service Market Place and configuration from SAP HANA Server. SFTP access will be set-up so that the customer may upload the address directories on their own.	n/a	n/a
193	TO_HANA_SDI_1.1.05	Set-up Agile Data Preparation (ADP)	Standard Services	ADP requires SDQ, ESS and HRF be deployed and set-up with related users and authorizations.	n/a	n/a
194	TO_HANA_SDI_1.1.06	Administration of Agile Data Preparation (ADP)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Setting Export Options, worksheet expiration, password features, warehouse workspace, and size and policy for queues.	Application Operations	A1
195	TO_HANA_SDI_1.1.07	Set-up replications, federation and transformations	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
196	TO_HANA_SDI_1.1.08	FlowGraph jobs backup	Excluded Tasks	Customer can use SAP SDI Web application interface and/or SDI Fiori Catalog/Tiles for this task.	n/a	n/a
197	TO_HANA_SDI_1.1.09	Replication task backup	Excluded Tasks	Customer can use SAP SDI Web application interface and/or SDI Fiori Catalog/Tiles for this task.	n/a	n/a
198	TO_HANA_SDI_1.1.10	DP Agent - High Availability set-up	Optional Services	DP Agent can be set-up in High Availability set-up by provisioning shadow instances on additional nodes; included only if explicitly mentioned in the contract.	n/a	n/a
199	TO_HANA_SDI_1.1.11	Deploy standard adapters with SAP HANA	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	See the SDI guide on the SAP Help Portal for a list of standard and custom adapters.	Application Operations	A1
200	TO_HANA_SDI_1.1.12	Deploy custom adapters with SAP HANA	Optional Services	See the SDI guide on the SAP Help Portal for a list of standard and custom adapters.	n/a	n/a
201	TO_HANA_SDI_1.1.13	Monitor Data Provisioning tasks and remote subscriptions	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
202	TO_HANA_SDI_1.1.14	Process remote subscription exceptions	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
203		SAP HANA: Streaming Analytics Option (Formerly Smart Data Streaming SDS)	Extended feature beyond the standard service scope.		-	-
204		Operational Set-up			-	-
205	TO_HANA_SA_1.0.01	Install Streaming Analytics option package	Optional Services	SAO package is installed on the SAP HANA DB node/MDC Tenant.	n/a	n/a
206	TO_HANA_SA_1.0.02	Add Streaming Analytics option hosts	Optional Services		n/a	n/a
207	TO_HANA_SA_1.0.04	Configure data source on Streaming Analytics option host	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Configure odbcx.ini for SAP HANA connection from each of the SAO hosts.	Application Operations	A1
208	TO_HANA_SA_1.0.05	Set-up streaming authorization	Optional Services	Activate smart data streaming roles, privileges and object access for monitoring and operations.	n/a	n/a
209	TO_HANA_SA_1.0.06	Enable Streaming Analytics related Fiori tiles on existing SAP HANA Cockpit within Customer landscape	Optional Services	Execute tasks for SAP HANA Cockpit activation for operations and monitoring.	n/a	n/a
210	TO_HANA_SA_1.0.07	Configure Streaming Cluster - High Availability set-up	Optional Services	Configure for high availability by adding multiple nodes. Additional Infrastructure required.	n/a	n/a
211	TO_HANA_SA_1.0.08	Provision of Disaster Recovery (Streaming Analytics option nodes)	Optional Services	Provisioning of identical number of nodes at a secondary site to mirror primary site using provisioning tool.	n/a	n/a
212	TO_HANA_SA_1.0.09	Streaming Life set-up	Excluded Tasks	Streaming Life is optional and not required as part of a standard SAO installation. The Streaming Life package is downloadable as a separate component only. Streaming Life is designed to deploy streaming projects on remote gateway devices	n/a	n/a
213	TO_HANA_SA_1.0.10	Create and deploy Streaming Analytics option streaming projects	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Using SAP HANA Studio, create and deploy project for data streaming to SAP HANA and other external sources.	Application Operations	A1
214	TO_HANA_SA_1.0.11	Monitor Streaming Analytics option objects and projects	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Monitoring SAO objects and projects using SAP HANA/ESP Cockpits.	Application Operations	A1
215		SAP HANA: Multiple Database Containers (MDC)	Extended feature beyond the standard service scope.		-	-
216		Operational Set-up			-	-
217	TO_HANA_MDC_1.1.01	Install HANA MDC (HANA server, Client, AFL, Runtime Libraries and Studio)	Standard Services	MDC is default in SAP HANA 2.0.	n/a	n/a
218	TO_HANA_MDC_1.1.06	Create technical users	Standard Services	MDC is default in SAP HANA 2.0. Customer responsible for user management using CUST_USER_ROLE_ADMIN	n/a	n/a
219	TO_HANA_MDC_1.1.07	Create additional tenants for datamart scenarios on existing infrastructure	Optional Services	For use on existing infrastructure. A change request (CR) is required for backup retention requirements and the set-up of new continuous monitoring.	n/a	n/a
220	TO_HANA_MDC_1.1.08	Create additional tenants for datamart scenarios on new infrastructure	Optional Services	Additional infrastructure consumption requires a change request (CR).	n/a	n/a
221	TO_HANA_MDC_1.1.04	Install additional services for tenant DB containers	Standard Services	Additional services such as dp server, index server, XS engine. By default one of each comes automatically upon creation of a tenant; installation of additional services required for certain use cases is covered under this line item.	n/a	n/a
222	TO_HANA_MDC_1.1.05	Scale out of tenant database	Standard Services	SAP BW systems only.	n/a	n/a
223	TO_HANA_MDC_1.2.17_AE	Tenant Copy/Move Preparation, Checks, Certificates, Pre-Steps, Move/Copy via replication, post processing steps	Standard Services	Move will drop the source database after the task is complete. Copy will keep the source after the task is complete.	n/a	n/a
224	TO_HANA_MDC_1.2.01	Network: Reserve additional ports to one instance to adjust tenant overhead per instance	Standard Services		n/a	n/a
225	TO_HANA_MDC_1.2.03	Auditing: Create and enable audit policies for systemdb and each tenant DB	Standard Services		n/a	n/a
226	TO_HANA_MDC_1.2.04	Data storage: DB-specific encryption keys	Standard Services	SSFS Source Key Change	n/a	n/a
227	TO_HANA_MDC_1.2.08	Data storage: DB-specific encryption keys (SSFS Source Key) Change	Standard Services	Change some/all keys upon request by customer. Used for Instance SSFS and System PKI SSFS master key, data volume encryption root key, redo log encryption root key, page encryption keys	n/a	n/a
228	TO_HANA_MDC_1.2.06	Backup of individual tenants	Additional Service	As per standard, backups are performed for the entire database. However, a tenant-individual backup - as a file based dump - is possible on individual request.	n/a	n/a
229	TO_HANA_MDC_1.2.07	Restore backup of individual tenant	Additional Service		n/a	n/a
230	TO_HANA_MDC_1.2.10	Authorization: Manage system privileges and tenant DB privileges	Standard Services		n/a	n/a
231		Active-Active Read Enabled Set-up	Extended feature beyond the standard service scope. Evaluated and reviewed by SAP on a case-by-case basis and pending license availability.		-	-
232	TO_HANA_AAR_1.1.01	Install primary and secondary SAP HANA system	Optional Services	Import delivery units, set-up users and roles.	n/a	n/a
233	TO_HANA_AAR_1.1.03	Establish log replay between both SAP HANA instances	Optional Services	Import delivery units, set-up users and roles.	n/a	n/a
234	TO_HANA_AAR_1.1.04	Establish monitoring for secondary system	Optional Services		n/a	n/a
235		Remote Data Sync (RDS)	Will be deprecated in future release. See SAP Note: 2641466 for more information.		-	-
236		Set-up and Configuration			-	-
237	TO_HANA_RDS_1.1.01	Install Remote Data Sync component on SAP HANA	Optional Services	RDS package is installed on the SAP HANA DB node. It can be installed at the same time as the SAP HANA install or can be installed independently.	n/a	n/a
238	TO_HANA_RDS_1.1.02	Add Remote Data Sync Host	Optional Services		n/a	n/a
239	TO_HANA_RDS_1.1.03	Activate RDS roles, privileges and object access for monitoring and operations	Optional Services		n/a	n/a
240	TO_HANA_RDS_1.1.04	Import of RDS delivery units	Optional Services	This task is required only in MDC set-ups.	n/a	n/a
241	TO_HANA_RDS_1.1.05	Set-up and configure RDS nodes for each tenant DB including service initialization, cockpit access, delivery units and verification	Optional Services	This task is required only in MDC set-ups.	n/a	n/a
242	TO_HANA_RDS_1.1.06	RDS cockpit - Set-up and Configuration	Optional Services	Execute tasks for HANA Cockpit activation for RDS operations and monitoring.	n/a	n/a
243		High Availability Set-up			-	-
244	TO_HANA_RDS_1.2.01	Set-up of additional hosts for high availability	Optional Services	Add and setup RDS for additional nodes, including configuration of single or multi-tenant databases and group setup. For Multi-tenant setup, only a single stand-by node serves all tenant DB(s). For RDS LoadBalancer setup, check R&R Section "LoadBalancer".	n/a	n/a
245	TO_HANA_RDS_1.2.02	High availability configuration	Optional Services	High Availability configuration is performed during initial landscape build when multiple RDS hosts are provisioned. Any additional RDS host setup and configuration after go-live will require additional costs.	n/a	n/a
246	TO_HANA_RDS_1.2.03	Set-up and configure LoadBalancer for High Availability support	Optional Services	High Availability configuration is performed during initial landscape build when multiple RDS hosts are provisioned. Any additional RDS host setup and configuration after go-live will require additional costs. RDS configuration activities can be performed using SAP Fiori Apps in the SAP HANA Cockpit.	n/a	n/a
247		Other Services			-	-
248	TO_HANA_RDS_1.3.01	Set-up and configure synchronization scripts	Excluded Tasks	Configure synchronization script for upload and download of data between remote and consolidate databases.	n/a	n/a
249	TO_HANA_RDS_1.3.02	Monitor synchronization requests, process and status	Excluded Tasks	Monitoring sync status, request and availability using RDS cockpits.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
250		Capture and Replay	Extended feature beyond the standard service scope.		.	.
251	TO_HANA_CR_1.1.01	Prepare capture in source system	Optional Services	Import Delivery units, set-up users and roles.	n/a	n/a
252	TO_HANA_CR_1.1.02	Start capture	Optional Services	Customer must ensure sufficient capacity to store capture of workload; capacity extension requires change request (CR).	n/a	n/a
253	TO_HANA_CR_1.1.03	Set-up replay in target system	Optional Services	Import Delivery units, set-up users and roles.	n/a	n/a
254	TO_HANA_CR_1.1.04	Configure replayer service	Optional Services	Configure replayer service.	n/a	n/a
255	TO_HANA_CR_1.1.05	Preprocess and replay in target system	Optional Services		n/a	n/a
256		SAP HANA: Accelerator for SAP ASE (AFA)			.	.
257		Operational Set-up			.	.
258	TO_AFA_1.1.01	Install Accelerator for SAP ASE Package	Standard Services	HANA - AFA package is installed on the SAP HANA DB node.	n/a	n/a
259	TO_AFA_1.1.02	Add Accelerator for ASE Host	Standard Services	Adding Accelerator for ASE host. For multi-tenant set-ups, AFA nodes are added exclusively to each tenant DB.	n/a	n/a
260	TO_AFA_1.1.03	Install and configure SAP Replication Server	Standard Services	SAP Replication server is required when data is replicated from existing SAP ASE OLTP source server to SAP HANA target server. Depending on SAP ASE OLTP server installed location i.e. on on-premise or cloud landscape, replication server can be installed as managed server.	n/a	n/a
261	TO_AFA_1.1.04	Authorization - Set-up	Standard Services	Activate accelerator for ASE roles, privileges and object access for monitoring and operations. Provision specific user and roles.	n/a	n/a
262	TO_AFA_1.1.05	Enable Pushdown Optimization	Standard Services	AFA pushdown optimization is enabled on AFA nodes.	n/a	n/a
263	TO_AFA_1.1.06	Import Delivery Units	Standard Services	Import of AFA Delivery units in HANA multi-container scenarios. This task is required only in MDC set-up.	n/a	n/a
264	TO_AFA_1.1.07	Multitenant Set-up	Standard Services	Configure and set-up AFA nodes for each tenant DB including, service initialization, cockpit access, delivery units and verification.	n/a	n/a
265	TO_AFA_1.1.08	Configure HTTP Access for Multi Database Containers (MDC)	Standard Services	Configure HTTP Access for Multitenant Database Containers for HANA Cockpit Access and monitoring. Note: This task is not required if HTTP Access is already configured for existing MDC set-up.	n/a	n/a
266	TO_AFA_1.1.09	High availability set-up and configuration	Optional Services	High Availability set-up and configuration involving single or multi-tenant DB set-ups including ETS group set-up; only if standby nodes are part of the contractual landscape design.	n/a	n/a
267		SAP ASE AFA - Other Services			.	.
268	TO_AFA_1.2.01	Pushdown Analysis Tool Set-up	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Simulation tool to evaluate pushdown optimization. This is carried out prior to AFA Deployment.	Application Operations	A1
269	TO_AFA_1.2.02	Data Replication for Accelerated Reporting	Excluded Tasks	Set-up ASE OLTP data replication to HANA DB. Identify and set-up DB objects to be replicated.	n/a	n/a
270	TO_AFA_1.2.03	Monitor Accelerator for ASE Pushdown Statements	Excluded Tasks	Monitoring Accelerator for ASE objects including pushdown statements using HANA Cockpits.	n/a	n/a
271		SAP HANA Native Storage Extension (NSE)	NSE is enabled by default on systems running HANA 2.0 SP04 or later. Customer is responsible for evaluating and requesting additional disk space for persistent storage. Additional storage for warm data must be included as part of contract or added as part of a Change Request (CR).		.	.
272	TO_NSE_1.1.01	Change Buffer cache size	Standard Services	Does not include calculating appropriate buffer cache size; Customer must provide buffer cache size. Change Request (CR) required if additional storage is needed.	n/a	n/a
273		Pacemaker High Availability Set-up	Optional Service/Change Request (CR) required for Service Level Agreement (SLA).		.	.
274		Installation and Configuration			.	.
275	TO_HANA_PM_1.1.01	Install SUSE Cluster (Pacemaker) package	Optional Services	For HANA 2.0 or SAP NetWeaver application servers.	n/a	n/a
276	TO_HANA_PM_1.1.01A	Convert non-Pacemaker System to Pacemaker based System	Additional Service	Convert existing system to Pacemaker combines all activities to restructure existing system to the target Pacemaker HA architecture and install/configure Pacemaker on top according to the Service Provider standards. Conversion is executed during a Customer provided downtime window. As a prerequisite, Customer needs to order all required infrastructure for the target Pacemaker/HA system deployment as well as the related Pacemaker packages (SBD, Cluster and Majority Maker if required).	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
277		C2 - Database Management	Excluding SAP HANA and Sybase IQ which are described in the respective sections.		-	-
278		Database operations			-	-
279	DB_1.1.17	Provide recommendations on database release management	Standard Services	Service provider will provide guidance on recommended database releases based on operational experience and information given by SAP Product Development.	n/a	n/a
280	DB_1.1.19	Monitor database resource consumption (memory, CPU, storage) to detect issues in technical operations	Standard Services	Task output feeds into capacity management; recommendations for optimization may also be provided via SAP Enterprise Support services.	n/a	n/a
281	DB_1.1.02	Perform database extensions to increase database capacity	Standard Services	Increased consumption will be charged according to contractual Agreement and may be a prerequisite to this task.	n/a	n/a
282	DB_1.1.20	Monitor database for technical issues; analyze and resolve technical database failures	Standard Services		n/a	n/a
283	DB_1.1.24	System troubleshooting, e.g. blocked transactions to overcome issues and bring database back to normal state of operations	Standard Services		n/a	n/a
284	DB_1.1.05	Schedule periodic statistical database collectors to generate statistical performance data	Standard Services		n/a	n/a
285	DB_1.1.06	Perform reorganization to remove database fragmentation	Standard Services		n/a	n/a
286	DB_1.1.07	Maintain database parameters - static and dynamic	Standard Services	Based on vendor recommendations and standards.	n/a	n/a
287	DB_1.1.21	Start/stop database	Standard Services		n/a	n/a
288	DB_1.1.11	Perform upgrades of database software	Standard Services	Process flow - additional information available.	n/a	n/a
289	DB_1.1.12	Apply database patches	Standard Services	Process flow - additional information available.	n/a	n/a
290	DB_1.1.13	Perform database backups (regular database and log backups)	Standard Services	Per backup policy.	n/a	n/a
291	DB_1.1.14	Restore and recover database after technical issues	Standard Services		n/a	n/a
292	DB_1.1.22	Perform database consistency check (DBCC)	Standard Services		n/a	n/a
293	DB_1.1.16	Assist customer in optimizing SQL statements (indexes, selects etc.) for application improvements	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Performance Optimization, Database Performance Management	P2, P3
294	DB_1.1.25	Create indexes for application tables	Standard Services		n/a	n/a
295	DB_1.1.26	Shrink database	Additional Service	Valid only for Sybase ASE.	n/a	n/a
296	HANA_1.1.11B	Manage standby application instance for high availability	Standard Services	Performed only for productive systems; only if dedicated standby databases are explicitly included as part of the solution in the contract. Not in scope for multi-node set-ups. Failover tests are not performed on a regular basis per system.	n/a	n/a
297		SAP ASE Database			-	-
298	DB_1.1.18	Implement SAP ASE database encryption on SAP ASE database already installed in cloud	Standard Services	No downtime required.	n/a	n/a
299	HANA_1.1.11A	Manage standby databases (ASE System Replication) for high availability	Standard Services	Performed only for productive systems; only if dedicated standby databases are explicitly included as part of the solution in the contract. Not in scope for multi-node set-ups. Failover tests are not performed on a regular basis per system.	n/a	n/a
300		IBM Db2			-	-
301	DB_DB2_1.1.01	Install and/or update Db2 client	Standard Services		n/a	n/a
302	DB_DB2_1.1.02	Implement Db2 database encryption on Db2 database already installed during Operations	Standard Services	Enable encryption on systems in operation. Downtime required for re-installation of database; potential additional storage consumption is subject to a change request (CR).	n/a	n/a
303	DB_DB2_1.1.03	Implement Db2 database encryption on Db2 database already installed during Build	Standard Services	Encryption is enabled at system build only if it has been requested.	n/a	n/a
304	DB_DB2_1.1.04	Manage standby databases (Db2 System Replication) for high availability	Standard Services	Performed only for productive systems; only if dedicated standby databases are explicitly included as part of the solution in the contract. Not in scope for multi-node set-ups. Failover tests are not performed on a regular basis per system.	n/a	n/a
305	DB_DB2_1.1.05	Manage standby databases (Db2 System Replication) for Disaster Recovery (DR)	Standard Services	Disaster Recovery is an Optional Service and is only provided in the managed service if Disaster Recovery is part of the contract/SOW/Order Form and/or added with a Change Request.	n/a	n/a
306	DB_DB2_1.1.06	Integrate Db2 system in the DBA Cockpit	Standard Services		n/a	n/a
307	DB_DB2_1.1.07	Check growing tables and provide recommendations for archiving or reorganization	Excluded Tasks		n/a	n/a
308	DB_DB2_1.1.08	Reorganize Tables (Technical Execution)	Standard Services	Automatic table reorganization done via scheduled jobs. Additional requests can be made via DB_DB2_1.09.	n/a	n/a
309	DB_DB2_1.1.09	Reorganize Tables (Technical Execution) - Additional Requests	Additional Service	Used for additional requests for DB_DB2_1.08. Any additional table reorganization to be done manually other than the ones that are scheduled for automatic reorganization via job.	n/a	n/a
310	DB_DB2_1.1.10	Test backup/restore procedures periodically	Standard Services	This task cannot be ordered by customers. This task is used to verify procedures and operational readiness; testing is not performed for each individual system but for representative scenarios.	n/a	n/a
311	DB_DB2_1.1.11	Create tablespace	Standard Services	Tablespace layout created initially during system build.	n/a	n/a
312	DB_DB2_1.1.12	Create additional tablespace and/or table movement (Technical Execution)	Additional Service	Used to request any change in tablespace layout and new tablespace configuration. Changes must be decided and provided by customer. Tables to be moved to be decided and provided by customer.	n/a	n/a
313	DB_DB2_1.1.13	Data Storage: DB specific encryption keys	Standard Services	Backup and maintenance of the keystore	n/a	n/a
314	DB_DB2_1.1.14	Change: DB specific encryption keys	Standard Services	Change the keys upon request by customer	n/a	n/a
315	DB_DB2_1.1.15	User, roles and permissions management for DB technical and administration users required for regular operations	Standard Services		n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
316		D - Core Technical Operations				
317		System Installation				
318	BASIC_1.8.01	Install cloud solution landscape as specified in the cloud contract, based on SAP and standards and best-practices	Standard Services	If an entirely new customer system is set up as a homogenous copy (no change of database platform) of a customer system already residing in the cloud, the respective effort and costs are covered by the general set-up and there will be no additional charge for a "system copy". Source systems not residing inside cloud is not addressed by this comment and is covered by the separately contracted cloud onboarding and migration service.	n/a	n/a
319	BASIC_1.8.25	SAP system re-installation after system handover	Additional Service	Customer may request a system rebuild on existing infrastructure only. This service is for effort only and does not include any required infrastructure change. This service is not applicable if new or changed infrastructure is required as new or changed infrastructure requires a Change Request. Some examples where this Identifier is utilized include changing the IP Address or existing system SID or changing the implementation type from Greenfield to Brownfield or vice versa etc.	n/a	n/a
320	BASIC_1.8.02	Technical configuration (installation post-processing) of installed systems (e.g. scheduling of standard batch jobs, backup etc.)	Standard Services	Scope is determined by this Roles & Responsibilities document.	n/a	n/a
321	BASIC_1.8.27	Change license for ABAP or Java system or HANA stand-alone database	Standard Services	Update installation numbers and corresponding license for ABAP or Java system with any database or HANA stand-alone database.	n/a	n/a
322	BASIC_1.8.15	Basic Technical Configuration of SAP BW/4HANA Systems	Standard Services	For ABAP Greenfield set-ups only.	n/a	n/a
323	BASIC_1.8.23	Install a preconfigured system from an SAP delivered template solution in a cloud skeleton system	Standard Services	This service performs a restore of a purchased SAP delivered template into a cloud skeleton system. The build of the template is not included in this service. Service must be requested during the initial provisioning phase. Template solution requests coming after the initial delivery of systems require additional service costs. Validation of the compatibility of different SAP delivered templates is not included in this service. Underlying target infrastructure must be appropriately sized and suited for the preconfigured system. In case of image from SAP Cloud Appliance Library (CAL), the image can only be used to set-up the sandbox system.	n/a	n/a
324	BASIC_1.5.01	Customize and configure application, maintain application, application support and application troubleshooting	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Service provider delivers systems which are technically configured on technical platform (e.g. SAP NetWeaver) level and ready to be operated. Any solution (e.g. SAP BW, SAP CRM, SAP EP) or customer specific configuration task is not included and must be performed by the customer.	Functional Application Management	F1
325	BASIC_1.8.03	Integrate installed systems into cloud operations environment	Standard Services	Performed One (1) time for each entirely new system. If the initial set-up is a migration, One (1) additional test run of the production (PRD) system is included. If the initial set-up is a conversion to S/4HANA, Two (2) additional test runs are included: One (1) for a non-production (QAS, DEV, etc.) system and One (1) for the productive (PRD) system). If the test run is not utilized for a non-production system, then it can be used for a production system with non-production timelines. Additional test runs are available as a billable service.	n/a	n/a
326	BASIC_1.8.03A	Integrate installed systems into cloud operations environment - additional test run requests	Additional Service	For additional test run requests as described in BASIC_1.8.03. For Brownfield Post Processing Dry Run PROD in cutover mode (during 24x7). Additional PRD mock test in cutover mode and/or upgrade SAP ECS post processing of a Non-PRD (DEV/QAS) system to cutover mode execution.	n/a	n/a
327	BASIC_1.8.04	Enable system monitoring	Standard Services	Setup technical monitoring of system components only. Does not include monitoring of solutions, customer configuration, interfaces, connections and jobs which can be covered with additional services.	n/a	n/a
328	BASIC_1.8.22A	Download data from BLOB (binary large object) storage to managed server	Standard Services	Used to copy data from on-premise to a target server in the managed environment. Data transfer from cloud storage (e.g. BLOB, S3, GCP) to managed server during onboarding.	n/a	n/a
329	BASIC_1.8.20	Provide special support to customer during onboarding - general	Additional Service	Depending on scope and approach of onboarding project customers may require technical assistance, e.g. whenever OS access is required, this type of onboarding support can be provided under this line item.	n/a	n/a
330	BASIC_1.8.20A	Provide special support to customer during onboarding – Brownfield Post-Migration Downtime Optimization Service	Additional Service	Subject to assessment and approval by Service Provider and provided on a case-by-case basis. Lead time of Two (2) months required. Optimize post processing timelines and activities performed during post migration. Reduce business downtime by using parallelism in manual activities. Includes: 1) Analysis of post migration activities to identify areas which can be optimized resulting in a reduction of business downtime required for typical migrations; 2) Where applicable, deployment of additional resources to perform manual post migration activities; 3) Pre-arranged activities that can reduce the number of action items required during the post processing execution.	n/a	n/a
331	BASIC_1.8.20B	Provide special support to customer during Enterprise Cloud Services onboarding - SAP RISE Migration Assisted Service	Additional Service	Migration Assisted Service Support for Production and Non-Production - additional requests/runs. This service is applicable only for RISE contracts where the migration partners (GSSP / VAR / Non-SAP services) are engaged to migrate system to ECS by customer.	n/a	n/a
332	BASIC_1.8.20_HC	Hypercare - project safeguarding service	Additional Service	The Hypercare enhanced service package helps safeguard critical phases of the solution lifecycle and provides a defined and intense suite of services and checks to support customers during critical project periods such as go-live, business cutover, migrations, etc. See separate service description document for details. A lead time of at least Ten (10) business days required.	n/a	n/a
333	BASIC_1.8.20_NPA	Active entitlement for Non-Productive Systems weekend support - initial system setup	Additional Service	Availability of service and request to be validated with Service Provider. Used for original/initial contract system setup. Customer can request this during initial contract.	n/a	n/a
334	BASIC_1.8.20_NPB	Active entitlement for Non-Productive Systems weekend support - contract term subscription and adding new systems	Optional Services	Availability of service and request to be validated with Service Provider. Subscription to this service is for the entire term of the contract. Also used for adding systems that are not part of the original subscription/request for remainder of contract duration.	n/a	n/a
335	BASIC_1.8.20_SRA	Service Request Acceleration	Additional Service	Service to safeguard critical phases of a service solution lifecycle by executing a series of checks and monitoring routines during and after the service delivery. This service addresses customer requests for a significant reduction of service request lead times.	n/a	n/a
336	BASIC_1.8.05	Configure application related connection to technical systems managed by the customer	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Create connections to satellite systems.	Application Operations	A1
337	BASIC_1.8.14	Implementation of SAP Best Practices and similar packages	Standard Services	Customer to inform SAP of the Best Practice (BP) activation requirement during initial provisioning, otherwise existing business client will be overwritten by the new client copy issued from Best Practices activation. Customer is responsible for defining/selecting Best Practice business of the selected country by providing completed Best Practice questionnaire document. BP activation is restricted to single country only in this service. BP activation can only be requested once per system landscape. All customizing that may be required after activation of the Best Practices content in order to meet requirements that differ from Best Practice scenarios is not part of this service. The implementation of "Best Practices for SAP S/4HANA" includes the activation of required business functions in client 000, the provisioning of a client with the desired client set-up alternative, and Best Practice scope items activation in the systems (if requested in the Best Practice questionnaire document provided by the customer). Best Practices scope items import and activation, if requested during system build, happens after the system is handed-over to the customer. Fiori technical enablement will be done in the (re-)created client. The activation of corresponding SAP Fiori Apps is not covered by this service.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
338	BASIC_1.8.14A	Implementation of SAP Best Practices and similar packages for additional countries	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Customer to inform SAP of the Best Practice (BP) activation requirement during initial provisioning, otherwise existing business client will be overwritten by the new client copy issued from Best Practices activation. Customer is responsible for defining/selecting Best Practice business of the selected country by providing completed Best Practice questionnaire document. BP activation is restricted to single country per request only in this service. BP activation can only be requested once per system landscape. All customizing that may be required after activation of the Best Practices content in order to meet requirements that differ from Best Practice scenarios is not part of this service. The implementation of "Best Practices for SAP S/4HANA" includes the activation of required business functions in client 000, the provisioning of a client with the desired client set-up alternative, and Best Practice scope items activation in the systems (if requested in the Best Practice questionnaire document provided by the customer). Best Practices scope items import and activation, if requested during system build, happens after the system is handed-over to the customer. Fiori technical enablement will be done in the (re-)created client. The activation of corresponding SAP Fiori Apps is not covered by this service.	Application Operations	A1
339	BASIC_1.8.19	Configure SAP online help (local installation)	Standard Services	Once (1) per system; subject to contractual change request (CR) to cover increased infrastructure consumption and additional administrative efforts	n/a	n/a
340	BASIC_1.8.21	Install ODBC Drivers to connect to external databases	Standard Services	On SLT/HANA SDS/BOBJ: customer needs to provide required software including appropriate usage rights for an installation in cloud; customer needs to provide specification for required connection (e.g. SSL/TLS)	n/a	n/a
341	BASIC_1.8.12	Increase system capacity by adding additional components (nodes, application servers etc.) or moving existing system to larger infrastructure (e.g. larger database server) - requires infrastructure change	Optional Services	Contractual change request (CR) required to reflect higher infrastructure consumption, subject to additional service fees. If this is a software or configuration only type change then task BASIC_1.8.12A should be used.	n/a	n/a
342	BASIC_1.8.10	Data handover from service provider to customer - one time	Standard Services	Delivered One (1) time per contract duration period. Efforts for a One (1) time data handover (creation of export/backup using SAP standard tools and transfer to storage) as part of a contract or system termination are included in the service. Planning, coordination, transfer to storage, and all associated costs are customer's responsibility. Any other occurrence of data handover is an additional service.	n/a	n/a
343	BASIC_1.8.13	Data handover from service provider to customer - additional requests	Additional Service	Efforts for additional data handover (creation of export/backup and transfer to storage). Planning, coordination, transfer to storage, and all associated costs are customer's responsibility. Note: One (1) time per contract duration period handover is included as a Standard Service per BASIC_1.8.10.	n/a	n/a

ROLES AND RESPONSIBILITIES

© 2025 SAP SE or an SAP affiliate company. All rights reserved. See Legal Notice on www.sap.com/legal-notice for use terms, disclaimers, disclosures, or restrictions related to this material.

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
344		Incident Management			-	-
345	BASIC_1.16.01	Operate Call Center receiving incidents 24x7x365	Standard Services	24x7 support only in English language, local languages where available during business hours and explicitly agreed with the customer. Further details are described in the Support Schedule for Cloud Services available from the SAP Trust Center.	n/a	n/a
346	BASIC_1.16.02	Incident processing - Qualification and prioritization of the incidents - Initiate incident resolution - Track incident resolution progress - Incident escalation as defined by escalation process - Determine incident resolution or workaround - Implement solution or workaround - Verify incident resolution - Inform customer about incident resolution	Standard Services		n/a	n/a
347	BASIC_1.16.03	Sign-off/Approve solution and confirm incident resolution	Excluded Tasks		n/a	n/a
348		Event detection and notification ("monitoring")			-	-
349	BASIC_1.8.17	Monitoring and event detection of SAP system availability and critical system states	Standard Services	Monitoring requirements are defined based on Roles & Responsibilities and SLAs; activated monitoring metrics and used thresholds are subject to constant change and tuning.	n/a	n/a
350	BASIC_1.7.07	Monitor critical business transactions	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Manual monitoring; effort based per execution.	Customer Application Monitoring	M2
351		General Operations			-	-
352	BASIC_1.8.08	Start/Stop managed systems	Standard Services	Used for a variety of scenarios including, but not limited to: daylight saving/standard time adjustment; restarting managed systems with reboot option; restarting additional application servers, restarting SAP Solution Manager diagnostic agent, etc.	n/a	n/a
353	BASIC_1.1.15	Troubleshoot technical issues in managed systems	Standard Services	For technical issues only; application related problems must be resolved by the customer.	n/a	n/a
354	BASIC_1.1.14	Assist customers with tasks in their area of responsibility if OS access is required	Standard Services	In cases where the execution of tasks requires activities to be performed within the OS level and for which the customer is responsible according to this document. Customers will not get OS access to managed servers within cloud. The service provider will support the customer, e.g. by taking over the tasks or by providing other methods to execute tasks. This line item only applies to infrequent/occasional assistance; projects requiring regular, longer and more general OS access for implementation, development and support cannot be supported via this line item.	n/a	n/a
355	BASIC_1.1.16	Maintain application parameters – static and dynamic	Standard Services	Process flow - additional information available. Service provider is responsible for executing this task as it can have an impact on system performance and availability. Provider will provide recommendations for technical system parameters; Provider will also adjust parameters by customer request except for certain standardized settings required to maintain system stability or security.	n/a	n/a
356		SAP Security Management			-	-
357	BASIC_1.2.22	Define and implement security concept for application	Excluded Tasks	Customer may engage other SAP services to define and implement security concept for application.	n/a	n/a
358	BASIC_1.2.23	Define and implement infrastructure security concept	Standard Services		n/a	n/a
359	BASIC_1.2.19	Customer specific Security Audit Log analysis	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Audit Readiness	S4
360	BASIC_1.2.20	Analyze the SAP system and identify relevant SAP security notes	Standard Services	Security notes for installed systems can be evaluated and analyzed to identify critical notes relevant for the ABAP-stack. This task is automatically delivered if Customer has relevant CAS Package(s). Customers without relevant CAS Package(s) can check security notes on SAP for Me (formerly known as the ONE Support Launchpad) and create a Service Request using BASIC_1.2.27 to implement security note(s) that are not application related.	n/a	n/a
361	BASIC_1.2.27	Implement SAP Security Notes - SAP Basis / ABAP related	Standard Services	Implement SAP Security Notes for SAP Basis without manual activities.- This task is automatically delivered if Customer has relevant CAS Package(s). Customers without relevant CAS Package(s) can check security notes on SAP for Me (formerly known as the ONE Support Launchpad) and create a Service Request to implement note(s).	n/a	n/a
362	BASIC_1.2.28	Implement relevant SAP Security Notes - Application related (ABAP and JAVA stack only)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Relevant SAP Security Notes with and without manual activities will be analyzed and implemented in DEV systems. Perform transport of implemented Notes to QAS and PROD systems (for ABAP stack only). Analyze relevant Security Notes for Java and create service request on behalf of Customer to initiate implementation of required Java components. Testing of implemented Notes is Customer's responsibility.	Application Security Updates	S1
363	BASIC_1.2.18	Administer customer users (e.g. user creation, change, deletion, maintenance of user profiles, roles, authorizations, source data and passwords)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Secure Users & Authorizations	S2
364	BASIC_1.2.15	Maintain user profiles, roles, authorizations, source data and passwords in client 000	Standard Services		n/a	n/a
365	BASIC_1.2.16	Provide access to client 000 for customer	Standard Services	Restricted, predefined profile only; limited set of users provided; service provided on request only.	n/a	n/a
366	BASIC_1.2.25	Design / Architecture of Single Sign On (SSO) for systems in cloud landscape	Excluded Tasks	Customer may engage other SAP services pertaining to SSO solutions for cloud environment.	n/a	n/a
367	BASIC_1.2.24	Implementation of Single Sign On (SSO) for systems in cloud landscape	Excluded Tasks	Customer may engage other SAP services pertaining to SSO solutions for cloud environment.	n/a	n/a
368	BASIC_1.2.21	Provide audit log information to customers	Standard Services	By request only to support incident investigations, but not on a regular basis e.g. to monitor administrative activities. Format, content and procedure used will be determined by SAP and by general security and data protection policies.	n/a	n/a
369	BASIC_1.2.26_AE	Update Global Change parameters (SE06) and default system settings (SCC4)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
370	BASIC_1.2.30	Security Risk Check	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Provides a detailed profile of the Customer's system landscape related to security risks and initiate remediation to address areas of high risk.	Security Risk Check	S6
371	BASIC_1.2.31	Security for Interface	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Provides guidance for secure access to remote function call (RFC) modules by implementing a secure framework for RFC modules and restricting access to needed modules only.	Security for Interface	S7
372	BASIC_1.2.32	Application Security Monitoring	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Monitor Customer's applications related to security statuses. Report Security KPIs and remediation activities.	Application Security Monitoring	S8

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
373		SAP Infrastructure and Application Logging service (LogServ)			-	-
374	BASIC_1.2.33	Enable SAP Infrastructure and Application Logging service (LogServ) for systems within SAP ECS	Optional Services	SAP ECS systems only. The SAP Infrastructure and Application Logging service (LogServ) allows for centralization, real-time collection, retention, and recovery of logs for systems, applications and other services.	n/a	n/a
375	BASIC_1.2.34	LogServ activities on Customer SIEM	Excluded Tasks	Service does not include the following activities in Customer SIEM: validation and confirmation of receiving logs; creating correlation rules; or monitoring of offenses.	n/a	n/a
376		Homogeneous system copy (aka System refresh)	A homogenous system copy is defined either as 1) a new system which is built as copy from an existing system in a landscape within the same data center or hyperscaler platform or 2) a "data refresh" overwriting the database of an already existing system in the landscape within the same data center or hyperscaler platform.	Copies for non-NetWeaver systems is not possible during initial build phase. After initial build phase copies for non-NetWeaver systems need to be evaluated on a case by case basis and is not possible in all cases. Note: Operating System and Database versions across Source and Target System must be the same.	-	-
377	BASIC_1.3.01	Homogeneous system copy (aka System refresh) for non-Netweaver systems during initial build phase.	Excluded Tasks	Only available after initial build phase is complete and the system is live (with the according status displayed all the tools).	n/a	n/a
378	BASIC_1.3.11	Pre-processing tasks which are not covered by PCA (Post-Copy Automation) - i.e. export customer defined tables with 'old' configuration	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Additional examples of tasks which are not covered by PCA include but are not limited to: saving configuration for HANA remote connections; implementing "Export Customer Defined Configuration Tables" for use in PCA; and transaction screenshots defined by customer.	Application Operations	A1
379	BASIC_1.3.10B	Homogeneous system copy for ABAP systems - post build phase (Planning, preparations, checks, database backup, database restore, technical post processing tasks, test of technical system functionality) - Intra-regional (same region) refresh only	Standard Services	<u>Process flow - additional information available.</u> Up to Twelve (12) refreshes per SID, per contract year, are included; additional refreshes are available as a chargeable request. Only available after initial build phase is complete and the system is live (with the according status displayed all the tools). Note: copies for non-NetWeaver systems need to be evaluated on a case by case basis and is not possible in all cases. Intra-regional (same region) only (e.g. restore a system in region 2 from backup from region 1 is not possible). Extra-regional (between region) refreshes are available as an Optional Service. Does not include activities such as data masking, scrambling etc.	n/a	n/a
380	BASIC_1.3.10B1	Homogeneous system copy for ABAP systems - additional requests	Additional Service	Requests for additional refreshes beyond entitlement noted in BASIC_1.3.10B for ABAP systems.	n/a	n/a
381	BASIC_1.3.10C	Homogeneous system copy for non-ABAP systems - post build phase (Planning, preparations, checks, database backup, database restore, technical post processing tasks, test of technical system functionality) - Intra-regional (same region) refresh only	Standard Services	<u>Process flow - additional information available.</u> Up to Two (2) refreshes per SID, per contract year, are included; additional refreshes are available as a chargeable request. Only available after initial build phase is complete and the system is live (with the according status displayed all the tools). Note: copies for non-NetWeaver systems need to be evaluated on a case by case basis and is not possible in all cases. Intra-regional (same region) only (e.g. restore a system in region 2 from backup from region 1 is not possible). Extra-regional (between region) refreshes are available as an Optional Service. Does not include activities such as data masking, scrambling etc.	n/a	n/a
382	BASIC_1.3.10D	Homogeneous system copy for non-ABAP systems - additional requests	Additional Service	Requests for additional refreshes beyond entitlement noted in BASIC_1.3.10C for non-ABAP systems.	n/a	n/a
383	BASIC_1.3.10A	Homogeneous system copy - post build phase (Planning, preparations, checks, database backup, database restore, technical post processing tasks, test of technical system functionality) - Extra-regional (between regions) refresh	Optional Services	<u>Process flow - additional information available.</u> Extra-regional (between region) refreshes are available as an Optional Service. Note: This service is not available in all regions and/or datacenters and is not available from all service providers. Does not include activities such as data masking, scrambling etc.	n/a	n/a
384	BASIC_1.3.07	Post processing tasks e.g. Embedded Search, BDLS - pre-existing systems	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	For existing/live systems	Application Operations	A1
385	BASIC_1.3.07A	Post processing tasks e.g. Embedded Search, BDLS - new builds, post migration switch back to main instance	Standard Services	For new builds for brownfield system-copy scenarios	n/a	n/a
386		Heterogeneous system copy (aka System migration)	A heterogeneous system copy is defined as a new system which is built as copy from an existing system in the landscape within the same data center or hyperscaler platform and within the same product offering.		-	-
387	BASIC_1.14.01	Heterogeneous system copy	Standard Services	Copy from an existing system in a landscape within the same datacenter and/or hyperscaler platform. Scope, approach and price subject to individual planning depending on circumstances and requirements; change request (CR) required for infrastructure changes. This service cannot be used to copy a system between product offerings (e.g. HEC to PCE). In general, an import service is not available during the provisioning phase. Copies for non-NetWeaver systems need to be evaluated on a case by case basis and is not possible in all cases.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
388		Release Management				
389	BASIC_1.5.13A	Install new software entities in the system after initial customer handover during Onboarding (applies to e.g. add-ons and other sorts of additional solution packages)	Standard Services	Process flow - additional information available . Contractual Change Request (CR) required in case of changed managed service scope or increased infrastructure consumption.	n/a	n/a
390	BASIC_1.5.13B	Install new content in the system after initial customer handover during Onboarding (applies to e.g. languages, content packages etc.)	Standard Services	Process flow - additional information available . Contractual Change Request (CR) required in case of changed managed service scope or increased infrastructure consumption.	n/a	n/a
391	BASIC_1.5.03	Implement SAP Notes, transport-based corrections instructions (TCI), and other types of manual corrections (corrections not provided as software correction package) in managed system (notes and corrections required to fix application related issues)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Fixing issues that fall into the responsibility of the customer per this Roles and Responsibilities document and which are therefore not covered by the respective Standard Service for technical SAP Note implementation are considered "application" related and corresponding SAP Notes would be applied as defined in this task. This would typically belong to the application layer and/or presentation layer of the NetWeaver as well as S/4-stack.	Application Operations	A1
392	BASIC_1.5.04	Implement SAP Notes, transport-based corrections instructions (TCI), and other types of manual corrections (corrections not provided as software correction package) in managed system (notes required to fix issues related to technical SAP components)	Standard Services	Dependent on the criticality of repair and only if no appropriate Support Package is available; fixing issues that fall into the responsibility of Provider per the Roles and Responsibility and/or require activities which cannot be performed by customer are considered "technical" and corresponding SAP notes would be applied as defined in this task. The topic area of the respective note can only serve as a rough indicator, since only a subset of BC-* topic areas are covered by the standard service. The two areas, where the service mostly applies are BC-CST and BC-DB. Any post installation tasks required as per the SAP Note in question which is not technical in nature (e.g. application related settings/manual code creation in customer namespace or manual activities required in SAP namespace) need to be performed by the customer.	n/a	n/a
393	BASIC_1.5.05	Apply Application SAP Notes for License Auditing	Standard Services	Automated License Metering allows automatic measurement of user and engine consumption to check compliance against customer licenses. Dependent on the criticality of repair of License Metering functionality, and only if no appropriate Support Package is available; fixing issues that fall into the responsibility of Service Provider per the Roles and Responsibility. This typically belongs to the application layer and/or presentation layer of SAP NetWeaver as well as the S/4-stack. SAP Notes which belong to application components like FI, CO etc. are included. Any post-installation tasks required per the SAP Note in question which is not technical in nature (e.g. application related settings/manual code creation in Customer namespace or manual activities required in SAP namespace) need to be performed by the Customer.	n/a	n/a
394	BASIC_1.5.06	Implementation of patches for system software running on OS level, e.g. SAP kernel	Standard Services	Process flow - additional information available . May require additional system downtime.	n/a	n/a
395	BASIC_1.5.21	Implement kernel patches using Rolling Kernel Update Service	Standard Services	To keep any adverse effects on business operations to a minimum when importing a new kernel version, instances are restarted one after the other. This means that during this procedure at least one application server instance is always available for business operations. Minimum Eligibility: A minimum of Two (2) application servers are required to execute the service automatically and with minimized system downtime. The service can be used as of SAP kernel release 741 and SAP_BASIS equal to or greater than 740 SP5. This service is only for SAP ABAP systems. This service does not include the configuration an additional gateway in the ASCS instance because this gateway will fail when the ASCS instance is restarted.	n/a	n/a
396	BASIC_1.5.09	Implement updates to the managed SAP solution using standard tools and methods	Standard Services	Process flow - additional information available . The term "update" denotes the change to a new minor release of the hosted SAP software, typically focused on bug fixes and small enhancements. The terminology for such events differs within the SAP portfolio, however frequently used terms in this context are "patch", "Support Package" and the like; this line item also includes the implementation of S/4HANA Feature Pack Stacks (FPS) but does not include the upgrade of S/4HANA to the next major release; the release sequence and the categorization of versions for each SAP product is available in the Product Availability Matrix (PAM) in SAP Service Marketplace; if a particular SAP component is not modelled in the PAM, this activity can be considered an "update" for that component unless where explicitly noted; this line item does not include the usage of more sophisticated update approaches like nZDT/ZDO/Downtime Minimization etc.; Requires standard scheduled downtime to implement. Any post installation tasks required which is not technical in nature (e.g. application related settings/manual code creation in customer namespace or manual activities required in SAP namespace) need to be performed by the customer. Available for systems maintained in an SAP Enterprise Cloud Services (ECS) environment for which SAP is the Service Provider. This service can be requested only after completing a migration by a Partner if applicable.	n/a	n/a
397	BASIC_1.5.11	Implement updates or upgrades to the managed SAP business software - ABAP solution using Zero Downtime Option (ZDO) of SUM which is part of the Maintenance Downtime Minimization Service	Additional Service	The term "update" denotes the change to a new minor release of the hosted SAP software, typically focused on bug fixes and small enhancements. The terminology for such events differs within the SAP portfolio, however frequently used terms in this context are "patch", "Support Package" and the like; this line item also includes the implementation of S/4HANA Feature Pack Stacks (FPS); the release sequence and the categorization of versions for each SAP product is available in the Product Availability Matrix (PAM) in SAP Service Marketplace; Note: any implementation of updates or upgrades may require additional system downtime or pre-requisites for system resources including but not limited to additional memory, CPU, and a QA or Pre-production system to perform testing and validation. If system resources are not available in the existing customer landscape they will need to be provided via a change request (CR) and may result in additional service fees. Requires minimal scheduled downtime to implement. Any post installation tasks required which are not technical in nature (e.g. application related settings/manual code creation in customer namespace or manual activities required in SAP namespace) need to be performed by the customer. Supported as per SAP Note 2707731 - Prerequisites and Restrictions of Zero Downtime Option of SUM.	n/a	n/a
398	BASIC_1.5.10	Ongoing maintenance of system languages, e.g. performing language fill-up	Standard Services	Available for systems maintained in an SAP Enterprise Cloud Services (ECS) environment for which SAP is the Service Provider. This service can be requested only after completing a migration by a Partner if applicable.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
399	BASIC_1.1.01	Version upgrade/update of SAP Software: planning and coordination	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	The term "update" denotes the change to a new minor release of the hosted SAP software, typically focused on bug fixes and small enhancements. The terminology for such events differs within the SAP portfolio, however frequently used terms in this context are "patch", "Support Package" and the like; this line item also includes the implementation of S/4HANA Feature Pack Stacks (FPS). The release sequence and the categorization of versions for each SAP product is available in the Product Availability Matrix (PAM) in SAP Service Marketplace. The term "version upgrade" denotes the change to a new major release of the hosted SAP software, typically including functional enhancements; besides upgrades this also includes the implementation of SAP Enhancement Packages; the release sequence and the categorization of versions for each SAP product is available in the Product Availability Matrix (PAM) in SAP Service Marketplace; 3rd Party software excluded. Maintenance planner (stack.xml) can be created by customer or delegated to Service Provider; Customer is responsible for confirming stack.xml, target version, and add-on. Available for systems maintained in an SAP Enterprise Cloud Services (ECS) environment for which SAP is the Service Provider. This service can be requested only after completing a migration by a Partner if applicable.	Release Version Upgrade	RM1
400	BASIC_1.5.01A	Orchestrate technical upgrade project	Standard Services	Used for technical execution. Used to request the upgrade of application software project orchestration for complete landscape to a new major (product) release or to a new Enhancement Package. E.g. S/4HANA 2021 to 2023, EHP 7 to 8, and NetWeaver 7.4 to 7.5. It is recommended to request this service only when the high-level timeline, scope, prerequisites, and dependencies, for the upgrade are defined.	n/a	n/a
401	MOVE_1.1.06	SAP Readiness Check for SAP S/4HANA upgrades	Standard Services	The service can only be applied to the SAP S/4HANA landscape indicated in the contract. Includes implementation of SAP Readiness Check for SAP S/4HANA upgrades Notes in the corresponding system and generation of the required files with subsequent handover of the export file to the customer. Customer must submit the request for SAP Readiness Check report and dashboard generation or SAP will perform this on behalf of the customer. Target scenario for this service is an SAP S/4HANA upgrade.	n/a	n/a
402	BASIC_1.5.07	Version upgrade of SAP Software: Execute technical upgrade tasks	Standard Services	The term "version upgrade" denotes the change to a new major release of the hosted SAP software, typically including functional enhancements; besides upgrades this also includes the implementation of SAP Enhancement Packages; the release sequence and the categorization of versions for each SAP product is available in the Product Availability Matrix (PAM) in SAP Service Marketplace; 3rd Party software excluded. Available for systems maintained in an SAP Enterprise Cloud Services (ECS) environment for which SAP is the Service Provider. This service can be requested only after completing a migration by a Partner if applicable.	n/a	n/a
403	BASIC_1.5.22	Version update of SAP Software: Pre- and Post BASIS Tasks	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	The term "update" denotes the change to a new minor release of the hosted SAP software, typically focused on bug fixes and small enhancements. The terminology for such events differs within the SAP portfolio, however frequently used terms in this context are "patch", "Support Package" and the like; this line item also includes the implementation of S/4HANA Feature Pack Stacks (FPS). The release sequence and the categorization of versions for each SAP product is available in the Product Availability Matrix (PAM) in SAP Service Marketplace. Examples for this service include: run simplification check; unlock objects; remove inactive objects; implement update related notes; support modification adjustment.	Release Version Upgrade	RM1
404	BASIC_1.5.22A	Version upgrade of SAP Software: Pre- and Post BASIS Tasks	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Examples for this service include, run simplification check; unlock objects; remove inactive objects; implement upgrade related notes; support modification adjustment for technical issues, supporting and monitoring of Silent Data Migration. The term "version upgrade" denotes the change to a new major release of the hosted SAP software, typically including functional enhancements; besides upgrades this also includes the implementation of SAP Enhancement Packages; the release sequence and the categorization of versions for each SAP product is available in the Product Availability Matrix (PAM) in SAP Service Marketplace.	Release Version Upgrade	RM1
405	TO_NWABAP_1.5.08	Adjust repository objects as part of software changes	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Execution of adjustments in SPDD/SPAU for SAP objects. Customer objects in SPDD/SPAU require customers decision during execution.	Release Version Upgrade	RM1
406	BASIC_1.5.08	Execute application related technical error handling tasks as part of the technical execution process for upgrades and updates and for Change Management	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Troubleshoot and SAP note correction implementation related to technical upgrade or update activities. Functional decisions to be confirmed by Customer's functional team or SAP product support if required during implementation of resolution.	Release Version Upgrade	RM1

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
407		Proactive services			-	-
408	BASIC_1.7.02	Prepare SAP service sessions session by maintaining RTCCTOOL	Standard Services	Performed only for productive systems; activities which have to be performed within the customer's SAP Solution Manager are the customer's responsibility.	n/a	n/a
409	BASIC_1.7.03	Analysis of SAP Service Session reports (incl. EarlyWatch Alert) for systems operated in the cloud for findings and recommendations regarding aspects within the service scope of cloud (technical operations)	Standard Services	Performed only for productive systems.	n/a	n/a
410	BASIC_1.7.09	Analysis of SAP Service Session reports (incl. EarlyWatch Alert) for systems operated in the cloud. Provide recommendations for changes related to SAP application (outside technical operations scope of standard service).	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Performed only for productive systems.	Application Operations	A1
411	BASIC_1.7.11_AE	Process chain retriggering or cancellation	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations or Customer Application Monitoring	A1, M2
412		System performance management			-	-
413	BASIC_1.12.01	Initial assessment of system performance issues	Standard Services	Service provider performs an initial assessment of identified or reported system performance issues to identify potential root causes. The primary scope of this assessment is to quickly check performance relevant technical building blocks of the service. This may include infrastructure, database and technical SAP stack for root causes and based on the result, determine whether the root cause is likely to be technical or application related.	n/a	n/a
414	BASIC_1.12.03	Troubleshoot SAP system performance issues (technical root causes within cloud service scope)	Standard Services	Based on the result of the initial assessment, troubleshooting by service provider is only performed in situations caused by technical issues within the service scope and where the system performance lies outside usual and expectable behavior (e.g. as it has shown in the past in comparable load situations).	n/a	n/a
415	BASIC_1.12.02	Performance and Benchmark Service	Optional Services	Includes the definition of performance metrics and measurements against those to identify deviations in system behavior; a detailed service description is available.	n/a	n/a
416	BASIC_1.12.05	Perform load test execution	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Demonstrate the load capabilities of the target SAP system based on the software and hardware configuration. Identify potential scalability bottlenecks with respect to the target environment. Simulation of end user behavior. Maximum 500 concurrent users.	Performance Testing	P1
417	BASIC_1.12.06	Monitor predefined application-related performance KPI's against SAP best practices reference response times	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Core Performance Management	P4
418	BASIC_1.7.06	Analyze and troubleshoot performance issues (root causes outside service scope and application related root causes)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	In some situations service provider might be able to support the customer using Application Management as a CAS service.	Performance Optimization	P2
419	BASIC_1.7.12_AE	Identify the root cause of failing KPIs and define preventive/corrective actions and/or possible countermeasures	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Performance Optimization or Core Performance Management	P2, P4
420	BASIC_1.7.08	Review and optimize customer code to improve system performance and stability	Excluded Tasks	Customer may engage other SAP services.	n/a	n/a
421		Certificate Handling			-	-
422	BASIC_1.11.01	Generate, Renew, Extend and/or Implement certificates	Standard Services		n/a	n/a
423	BASIC_1.11.02	Send certificate signing request to Certificate Authority	Excluded Tasks		n/a	n/a
424	BASIC_1.11.06	Monitor validity period of certificates	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Restricted to only certificates for URLs. Customer to provide URL for certificate check.	Application Monitoring or Customer Application Monitoring	M1, M2

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
425		Disaster Recovery	Disaster Recovery is an Optional Service and is only provided in the managed service if Disaster Recovery is part of the contract/SOW/Order Form and/or added with a Change Request.		-	-
426	BASIC_1.9.01	Implement disaster recovery set-up according to architecture blueprint and contractual specifications. Test managed service internal data center and technical system infrastructure.	Optional Services	Performed only for productive systems; only included in service if disaster recovery solution is part of the contract/SOW/Order Form. Managed landscape internal testing requires additional downtime.	n/a	n/a
427	BASIC_1.9.02	Develop and use disaster recovery procedures for database and file system replication only	Optional Services	Performed only for productive systems; only included in service if disaster recovery solution is part of the contract/SOW/Order Form.	n/a	n/a
428	BASIC_1.9.03	Ongoing management of disaster recovery architecture: monitoring of data replication to secondary site including troubleshooting	Optional Services	Performed only for productive systems; only included in service if disaster recovery solution is part of the contract/SOW/Order Form.	n/a	n/a
429	BASIC_1.9.04	Ongoing management of disaster recovery architecture: maintenance and change management for systems at secondary site to ensure system consistency including troubleshooting	Optional Services	Performed only for productive systems; only included in service if disaster recovery solution is part of the contract/SOW/Order Form.	n/a	n/a
430	BASIC_1.9.05	Develop and maintain disaster recovery procedures for those areas and aspects of the service which are in customer responsibility	Excluded Tasks	Included customer infrastructure, connectivity to managed system interfaces (including RFC connections, connection details in other integrated systems), organizational measures and processes etc.	n/a	n/a
431	BASIC_1.9.06	Execute failover during disaster recovery test (DB, application and cnames)	Optional Services	Note: This Service is not applicable for Short Distance DR offering, HA/DR architecture scenarios; DB inserts/updates/deletes done during testing will be lost. Performed only for productive system; on request; maximum One (1) per calendar year (any further test will be charged as billable service); only included in service if disaster recovery solution is part of the contract/SOW/Order Form; customer is responsible for creation and execution of functional tests and customer must support in certain technical aspects, e.g. regarding interfaces, connectivity etc.	n/a	n/a
432	BASIC_1.9.10	Execute failover during disaster recovery test (DB, application and cnames) - additional test	Additional Service	Note: This Service is not applicable for Short Distance DR offering, HA/DR architecture scenarios; DB inserts/updates/deletes done during testing will be lost. Performed only for productive system; on request; maximum One (1) per calendar year (any further test will be charged as billable service); only included in service if disaster recovery solution is part of the contract/SOW/Order Form; customer is responsible for creation and execution of functional tests and customer must support in certain technical aspects, e.g. regarding interfaces, connectivity etc.	n/a	n/a
433	BASIC_1.9.09	Perform online disaster recovery tests (also known as "fencing"); primary systems remain accessible	Additional Service	Also known as "fencing". Note: Solution "SAP Cloud Connector" can not be supported; this Service is not applicable for Short Distance DR offering. Mixed HA/DR available for SAP data centers and the following hyperscalers: Azure, AWS and GCP. Performed only for productive systems; on request; only possible to be delivered if disaster recovery solution is part of the contract/SOW/Order Form. Customer must support certain technical aspects, e.g. regarding interfaces, connectivity, etc.	n/a	n/a
434	BASIC_1.9.07	Execute productive failover in case of an officially declared disaster by service provider - all HA/DR architecture scenarios	Optional Services	Note: This Service is applicable for Short and long distance DR; True disaster declaration for all HA/DR architecture scenarios or Short Distance DR. "Disaster" shall describe a catastrophic event causing widespread damage/destruction, typically not restricted to one individual system or landscape but larger parts of the overall infrastructure; therefore disaster recovery is no measure to overcome outages of isolated systems due to hardware or software incidents; performed only for productive systems; only included in service if disaster recovery solution is part of the contract/SOW/Order Form	n/a	n/a
435	BASIC_1.9.11	Mixed High Availability (HA)/Disaster Recovery (DR): Execute productive failover for a specific SID and invert replication vector	Optional Services	Note: This Service is not applicable for long distance DR; Full productive failover. For Mixed HA/DR architecture. Not available on all Hyperscalers. Maximum of One (1) full-cycle, customer requested failover per calendar year, per SID is included ("flip-flop"). Failovers which are the result of SAP-declared disasters do not count against maximum. Additional customer requested failovers are billable. Only included in service if disaster recovery solution is part of the contract/SOW/Order Form.	n/a	n/a
436	BASIC_1.9.12	Mixed High Availability (HA)/Disaster Recovery (DR): Execute productive failover for a specific SID and invert replication vector - additional customer requests	Additional Service	Note: This Service is not applicable for long distance DR; Full productive failover. For Mixed HA/DR architecture. Not available on all Hyperscalers. Maximum of One (1) full-cycle, customer requested failover per calendar year, per SID is included ("flip-flop"). Failovers which are the result of SAP-declared disasters do not count against maximum. Additional customer requested failovers are billable. Only included in service if disaster recovery solution is part of the contract/SOW/Order Form.	n/a	n/a
437		Operations Extension	These services provide possible extensions to areas of Incident, Change and Event Management beyond the standard scope of services.		-	-
438	BASIC_1.15.01	Analyze Technical Issue - SAP Basis / Customer Client	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Only available for managed systems.	Application Operations	A1
439	BASIC_1.15.02	Change Management: Changes of technical system configuration not included in Standard Services as per R&R Definition	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Only available for managed systems.	Application Operations	A1
440	BASIC_1.15.03	Event management: Monitor technical/non-functional event types not included in Standard Service as per R&R Definition	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Only available for managed systems. One (1) time System Monitoring.	Application Operations	A1
441	BASIC_1.15.04	Cloud Application Service - Generic Service Request: Perform Service Request Fulfillment for technical/non-functional tasks not included in Standard Service as per R&R Definition	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Only available for managed systems.	Application Operations	A1
442	BASIC_1.15.06	Additional Service – Generic Service Request: Used for one-off tasks/services which are not covered by Standard, Optional and/or Cloud Application Services.	Additional Service	Only available for managed systems.	n/a	n/a
443		SAP Safekeeper Service			-	-
444	BASIC_1.18.01	SAP Safekeeper Service	Optional Services	See SAP Safekeeper Service Description for details. Provides services and temporary sandbox infrastructure to accelerate upgrades to the current S/4HANA version.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
445		E - NetWeaver Operations (ABAP and Java)	Depending on technical conditions some tasks listed in this section are applicable to only one of the two platforms (NW ABAP or NW Java).			
446		General NetWeaver Operations				
447	TO_NWABAP_1.1.04	Analyze SAP system log and fix technical failures included in scope of services	Standard Services	May require customer assistance.	n/a	n/a
448	TO_NWABAP_1.1.06	Monitor update processes within SAP software to avoid system operations issues	Standard Services	Service provider informs customer of update process problems; RCA methods provided by SAP Enterprise Support may be used to find application related root causes for updates.	n/a	n/a
449	TO_NWABAP_1.1.07	Analyze update terminations, determine business impact and appropriate action	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	With regards to application issues and impact.	Application Operations	A1
450	TO_NWABAP_1.1.08	Clean up terminated updates	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
451	TO_NWABAP_1.1.10	Analyze lock entries, determine business impact and appropriate action	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
452	TO_NWABAP_1.1.11	Check/clear lock entries	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
453	TO_NWABAP_1.1.12	Check for ABAP dumps to detect serious system issues	Standard Services	Service provider informs customer in the event of serious application related issues that need to be resolved by the customer. Dumps relevant to provider's responsibility will be resolved by provider.	n/a	n/a
454	TO_NWABAP_1.1.22	ABAP dump check and classification	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Including application related dumps.	Application Operations	A1
455	TO_NWABAP_1.1.23	Analyze SAP application log and provide recommendations on fixing failures	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Customer specifies which errors should be analyzed (in SLG1). Service request is limited to Four (4) errors per ticket	Application Operations	A1
456	TO_NWABAP_1.1.24	Reorganize qRFC/IRFC queues	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
457	TO_NWABAP_1.1.25	Check fastest growing tables in the SAP system and provide recommendations for archiving or reorganization	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	In the context of Application Operations this service is intended to provide information about top growing tables and provide basic recommendations for table archiving and reorganization. Creating a full scope Archiving Strategy is not part of this service.	Application Operations or Data Lifecycle Management or Data Volume Optimization	A1, D3, D6
458	TO_NWABAP_1.1.13	Administer SAP Logon Groups	Standard Services	The customer may perform this activity; if service provider is requested to perform the task, the design/definition must be provided by customer.	n/a	n/a
459	TO_NWABAP_1.1.26	Create/Update/Change the System-PSE (Personal Security Environment)	Standard Services	Customers may decide to perform this task themselves for convenience.	n/a	n/a
460	TO_NWABAP_1.1.16	Implement/update tools to ensure readiness for SAP support services	Standard Services	Process flow - additional information available .	n/a	n/a
461	TO_NWABAP_1.1.20	Define archiving strategy	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Data Lifecycle Management	D3
462	TO_NWABAP_1.1.21	Execution and monitoring of archiving process	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Increased infrastructure consumption is subject to a CR and additional service fees. Manual monitoring; effort based per execution. This task is only for execution of the archiving programs. The archiving set-up, retention configuration, investigate / troubleshooting of the unarchivable documents/objects is customer's responsibility.	Data Lifecycle Management	D3
463	TO_NWABAP_1.1.17	Manage Web Service Runtime (WSRT)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
464	TO_NWABAP_1.1.18	Configure technical RFC connections (TA SM59) to central systems managed by SAP used for system operations	Standard Services	Technical RFC connection = generic RFC connection required for all managed system based systems the same way, e.g. for monitoring configuration.	n/a	n/a
465	TO_NWABAP_1.1.27_AE	Termination of User activity related to identified expensive statement	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
466	TO_NWABAP_1.1.28_AE	Temporary change of heap or extended memory allocation using RSMEMORY	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
467	TO_NWABAP_1.1.29_AE	Termination of dialog work processes	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
468	TO_NWABAP_1.1.30_AE	ICM service restart on Non-responsive situation or post SSL certificate renewal	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
469	TO_NWABAP_1.1.31	Work process cancellation; Optimization of Batch Jobs load post analysis	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Monitoring or Customer Application Monitoring	M1, M2
470	TO_J2EE_1.1.01	Troubleshoot SAP J2EE in case of technical issues	Standard Services	For technical issues only; application related problems must be resolved by the customer.	n/a	n/a
471	TO_J2EE_1.1.02	SAP J2EE: adjust/configure Java applications	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
472	TO_NWABAP_1.1.32	Deactivate critical ICF services in SAP ABAP instance	Standard Services	Recommended that certain critical ICF services (32 ICF Services) must not be active for ABAP application servers in productive managed landscapes.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
473		SAP Client Operations			-	-
474	TO_NWABAP_1.2.01	Copy client within one SAP System (including analysis and resolution of technical issues)	Standard Services	Process flow - additional information available . 500GB upper limit, above that threshold align with SAP Enterprise Cloud Services (ECS) representative for the better planning due to technical limitations. Available for systems maintained in an SAP Enterprise Cloud Services (ECS) environment for which SAP is the Service Provider. This service can be requested only after completing a migration by a Partner if applicable.	n/a	n/a
475	TO_NWABAP_1.2.06	Delete client within one SAP System (including analysis and resolution of technical issues)	Standard Services	Process flow - additional information available . Available for systems maintained in an SAP Enterprise Cloud Services (ECS) environment for which SAP is the Service Provider. This service can be requested only after completing a migration by a Partner if applicable.	n/a	n/a
476	TO_NWABAP_1.2.02	Perform client export/import or remote client copy between SAP systems (including analysis and resolution of technical issues)	Standard Services	300GB upper limit, above that threshold, only system copies are performed because of technical restrictions. Does not include activities such as data masking, scrambling etc. Available for systems maintained in an SAP Enterprise Cloud Services (ECS) environment for which SAP is the Service Provider. This service can be requested only after completing a migration by a Partner if applicable.	n/a	n/a
477	TO_NWABAP_1.2.07	Pre-processing tasks, i.e. suspend jobs, lock users, export tables with 'old' configuration	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
478	TO_NWABAP_1.2.08	Post processing tasks, i.e. Enterprise Search, Fiori Launchpad, unlock user, release jobs	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
479	TO_NWABAP_1.2.05	Investigate and resolve application related issues (e.g. with certain database tables and fields)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
480	TO_NWABAP_1.2.09	Create new client	Standard Services	Make new entry in transaction SCC4. Filling of the client performed as sperate service request via client copy.	n/a	n/a
481		Interface Administration			-	-
482	TO_NWABAP_1.3.24	Create, execute, and troubleshoot batch input sessions	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
483	TO_NWABAP_1.3.25	Configure interface related functions (e.g. IDOCs, interface scripts and jobs, gRFC/IRFC/bgRFC, ALE scenarios etc.)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
484	TO_NWABAP_1.3.26	Monitoring of interfaces and interface related functions	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	In context of Application Operations, monitoring activities are restricted to a short period of time and for One (1) interface only.	Application Operations or Application Monitoring or Customer Application Monitoring	A1, M1, M2
485	TO_NWABAP_1.6.03	Establish trust relationships between SAP NW ABAP systems	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Performed for Fiori launchpad enablement only.	Application Operations	A1
486		Job Scheduling			-	-
487	TO_NWABAP_1.4.09	Schedule standard jobs (SM36 / SJOBREPO). Monitor SAP system batch jobs to facilitate best-practice housekeeping of the SAP system	Standard Services	Per SAP guidelines as defined in SAP Notes 2190119 (S/4HANA) or 16083 (ECC); additional SAP standard jobs to be reviewed and agreed with customer.	n/a	n/a
488	TO_NWABAP_1.4.14	Schedule/Change/Delete jobs as per customer requirement	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Up to Eight (8) jobs can be handled in one service request.	Application Operations	A1
489	TO_NWABAP_1.4.15	Administer application batch jobs: - Monitor jobs - Troubleshoot according to troubleshooting handbook	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Monitoring or Customer Application Monitoring	M1, M2
490		Transport Management				
491	TO_NWABAP_1.5.10	Create and maintain transport domain in client 000 and transport directory	Standard Services	Migrating the transport method from HTC to HTA is not included in this task. Limited to a default setup. Customer specific domains or configurations not included.	n/a	n/a
492	TO_NWABAP_1.5.15_AE	Initial set-up of SAP transport management system (TMS) and configure transport routes	Standard Services	Limited to a default setup. Customer specific domains or configurations not included.	n/a	n/a
493	TO_NWABAP_1.5.16	Copy and delete SAP Transport cofiles and data files	Standard Services		n/a	n/a
494	TO_NWABAP_1.5.11A	Maintain SAP transport management system incl. configuration of transport routes and any further configuration (automatic import, scheduled import etc.)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations or Customer Deployment Planning and Execution	A1, DP2
495	TO_NWABAP_1.5.12	Initial configuration of Transport-based correction instructions (TCI) in client 000	Standard Services	Limited to a default setup. Customer specific domains or configurations not included.	n/a	n/a
496	TO_NWABAP_1.5.01	Set-up of CTS+	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	OS access required. Assistance can be requested via task BASIC_1.1.14.	Application Operations or Solution Manager - ChaRM	A1, DP3
497	TO_NWABAP_1.5.02	Transfer and release of transport orders	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Before importing critical transports the customer should inform service provider and perform the transport as a scheduled activity.	Application Operations or Customer Deployment Planning and Execution	A1, DP2
498	TO_NWABAP_1.5.03	Execute transports to move objects between SAP systems	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations or Customer Deployment Planning and Execution	A1, DP2
499	TO_NWABAP_1.5.04	Troubleshoot SAP Transport Management System	Standard Services	Only for technical transport problems, not related to problems due to the content of the transports, e.g. locked objects.	n/a	n/a
500	TO_NWABAP_1.5.14	Set-up and configuration of ChaRM in SAP Solution Manager	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Solution Manager - ChaRM	DP3
501	TO_NWABAP_1.5.09	Testing and acceptance of object changes	Excluded Tasks		n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
512		F - Server Provisioning (aka IaaS)	Not included in baseline service, additional SKU and/or contract required. Services to provide server platform, e.g. to install and run non-SAP applications (IaaS); this section does not apply to server infrastructure used to run the managed SAP system landscape. Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler).			
513		Security Planning				
514	TO_SPROV_1.4.01	Provide application communication requirements	Excluded Tasks		n/a	n/a
515	TO_SPROV_1.4.02	Determine communication and security requirements	Excluded Tasks		n/a	n/a
516	TO_SPROV_1.4.03	Create and maintain security policies	Excluded Tasks		n/a	n/a
517	TO_SPROV_1.4.04	Determine security strategy and implementation plans	Excluded Tasks		n/a	n/a
518	TO_SPROV_1.4.05	Monitor and assess security strategies	Excluded Tasks		n/a	n/a
519		Hardware Operations				
520	TO_SPROV_1.5.03	Plan and conduct cloud infrastructure maintenance	Standard Services		n/a	n/a
521		Server Management				
522	TO_SPROV_1.6.11	Sizing of server infrastructure	Excluded Tasks	Virtual machines provided as specified in the SOW/Order Form; customer must ensure that sizing is accurate and provided VMs fulfil the requirements of the intended use case.	n/a	n/a
523	TO_SPROV_1.6.01	Provide server infrastructure	Standard Services		n/a	n/a
524	TO_SPROV_1.6.02	Provide licenses for OS	Standard Services	Licenses will be provided and charged by provider.	n/a	n/a
525	TO_SPROV_1.6.03	Install basic operating system	Standard Services	Supported OS: SUSE LINUX and MS Windows Server (most up-to-date versions).	n/a	n/a
526	TO_SPROV_1.6.04	Install OS patches and security updates	Excluded Tasks	Server will be shipped with the latest available security patch level, after hand over customer is responsible for updates.	n/a	n/a
527	TO_SPROV_1.6.05	Install antivirus software and patterns updates	Excluded Tasks	Customer is responsible for Antivirus installation and virus pattern updates on a daily basis.	n/a	n/a
528	TO_SPROV_1.6.06	Antivirus software licenses	Excluded Tasks		n/a	n/a
529	TO_SPROV_1.6.07	Perform scheduled startup/shutdown of hardware	Standard Services	Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler).	n/a	n/a
530	TO_SPROV_1.6.08	Restart the hardware after failure	Standard Services	Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler).	n/a	n/a
531	TO_SPROV_1.6.09	Monitor hardware on hypervisor level	Standard Services	Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler).	n/a	n/a
532	TO_SPROV_1.6.10	Monitor operating system of provided OS instances	Excluded Tasks		n/a	n/a
533		Storage Management				
534	TO_SPROV_1.7.01	Initial set-up and ongoing management of storage	Standard Services	Storage capacity will be provided as contracted based on customer specifications; technical limitations for storage volume that can be provided under this service apply (details specified in the respective service description).	n/a	n/a
535	TO_SPROV_1.7.02	Manage data files/file systems	Excluded Tasks		n/a	n/a
536	TO_SPROV_1.7.03	Request storage area size/ size extensions for the backup storage area. Select and execute backup according to application/ customer needs and store backup data into the designated backup storage area. Ensure housekeeping of the backup storage area.	Excluded Tasks		n/a	n/a
537	TO_SPROV_1.7.04	Provide an NFS or SMB share as backup storage area to allow storage of customer defined backups. Backup storage area sizing is done based on customer input as contracted.	Standard Services		n/a	n/a
538	TO_SPROV_1.7.06	Mount of file system from managed server to an IaaS server	Standard Services	Infrastructure related services may be different depending on deployed infrastructure platform (e.g. Hyperscaler). Applicability to a given customer landscape needs to be checked with the respective SAP Account Manager; customers must not execute tasks using this mount that put a risk to performance or stability of the managed cloud infrastructure (e. g. network services, large volume data syncs etc.).	n/a	n/a
539	TO_SPROV_1.7.05	Scale storage capacity	Optional Services		n/a	n/a
540		Application Management				
541	TO_SPROV_1.8.01	Define application requirements	Excluded Tasks		n/a	n/a
542	TO_SPROV_1.8.02	Provide customer specific software licenses	Excluded Tasks	Customer must make sure that they hold valid licenses to run the installed software in the cloud environment.	n/a	n/a
543	TO_SPROV_1.8.03	Install application	Excluded Tasks		n/a	n/a
544	TO_SPROV_1.8.04	Operate application	Excluded Tasks		n/a	n/a
545	TO_SPROV_1.8.05	Install patches and security updates	Excluded Tasks	Customer is responsible for software lifecycle management.	n/a	n/a
546	TO_SPROV_1.8.06	Application monitoring	Excluded Tasks		n/a	n/a
547		IaaS VM Snapshot (offline image backup)				
548	TO_SPROV_1.10.01	Service Set-up	Optional Services		n/a	n/a
549	TO_SPROV_1.10.02	Request additional storage for copy of block device	Excluded Tasks	This Volume (additional storage) needs to be provisioned to accommodate the block device backup temporarily before moving it to the standard backup solution.	n/a	n/a
550	TO_SPROV_1.10.04	Snapshot of IaaS	Optional Services	Only applicable for SAP datacenter. Performed on customer request only; shutdown, rsync block device and copy to the standard backup solution. Maximum of Two (2) snapshots per month. Minimum duration of Three (3) months required for snapshot service and storage (if required). Any storage required can be extended through the contract duration.	n/a	n/a
551	TO_SPROV_1.10.05	Restart server and inform customer	Optional Services	After successful restart of VM, inform customer and update the ticket.	n/a	n/a
552	TO_SPROV_1.10.06	Start required applications on server	Excluded Tasks	Customer needs to make sure that applications are started after the snapshot operation.	n/a	n/a
553		Disaster Recovery				
554	TO_SPROV_1.9.01	Provide VM and related storage in the secondary data center	Optional Services	Only for those IaaS servers explicitly specified in the contract as relevant for DR.	n/a	n/a
555	TO_SPROV_1.9.02	Set-up application on the dedicated VM in the secondary data center. Configure file system replication between primary and the secondary data center across the customer WAN network. Monitor the replication status and perform necessary operation activities.	Excluded Tasks		n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
556		G - Cloud Application Services				
557		Cloud Application Services - Reactive Services	Only available for managed systems. Service delivery requires initial scoping for relevant application area before tasks can be delivered; transition to service execution may apply.		-	-
558	CAS_1.1.01	Incident Management: Troubleshoot functional incidents in SAP applications	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP will perform reactive application management for Incidents, where the resolution may include: Restoration of the service or resolution of the underlying issue; Provision of a Workaround; Creation of an action plan.	Functional Application Management	F1
559	CAS_1.1.02	Problem Management: root cause analysis and resolution of problems in SAP applications	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP will perform root cause analysis and propose a resolution for problems, which may include: Analysis of the root cause of an Incident; Providing an approach to prevent the Incident from reoccurring; Resolution of problems; Recommendations on application and system optimization; Request involvement of Product Support as necessary.	Functional Application Management	F1
560	CAS_1.1.03	Service Request Management: Perform Service Request Fulfillment for functional tasks in SAP applications	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP will accept tickets from Key Users to request a service. Service Request Tickets include: Agreed Standard Service Request or Standard Change with implementation; Service Request for non-standard scope, including: Scope definition and commercial validation and approval.	Functional Application Management	F1
561	CAS_1.1.05	Change Management: Changes of functional configuration in SAP applications	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP will accept tickets for non-standard scope from Key Users and provide analysis of Requests for change, including: Scope definition and commercial validation and approval.	Functional Application Management	F1
562		Cloud Application Services - Proactive Services				
563	CAS_1.2.03	Managed Operations Control Center	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Customer Application Monitoring	M2
564	CAS_1.2.05	Deployment Management	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Customer Deployment Strategy	DP1
565	CAS_1.2.07	Business Improvement Foundation	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Service activates and continuously operates SAP Signavio Process Insights and Business Process Monitoring of Cloud ALM or those tasks which are per product default in responsibility of the Customer. Provides managed integration for both S/4HANA Cloud, private edition and for a single point of access by the Process Analytics Dashboard (PAD) running on BTP as central launchpad by SAP Build Workzone, standard edition.	Business Improvement Foundation	B1
566	CAS_1.2.08	Data Integration and Lifecycle Management	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Data Lifecycle Management	D3
567		Testing Services				
568	CAS_2.1.01	Provide detailed plan for test management execution	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP will align with Customer's test strategy and approach and schedule test execution with respect to the Customer defined test scope.	Regression Testing	T2
569	CAS_2.1.02	Perform outcome based functional testing on the defined scope, report defects, and report issues	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP will use Customer provided test case documentation for test execution.	Regression Testing	T2
570	CAS_2.1.03	Configure the Test Suite in SAP Solution Manager	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP will leverage Customer's instance of Test Management Tool (e.g. Solution Manager) as system for record of testing.	Regression Testing	T2
571	CAS_2.1.04	Test Execution on SAP Integration Suite	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		SAP S/4HANA Interface Testing	T3
572	CAS_2.1.05	Execution of automated interface test scripts	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		SAP Integration Suite Testing	T4
573		Security Services				
574	CAS_2.2.01	Execute Segregation of Duty check and provide report of risk assessment and recommendations for improvement	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Segregation of Duties Check	S3
575	CAS_2.2.02	Scan Customer SAP productive system for security risks of secure configuration, review authorization concept, and secure configuration of HANA system	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Security Risk Check	S6
576	CAS_2.2.03	Continuous management of existing and new RFC enabled function modules	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Security for Interface	S7
577	CAS_2.2.04	Execute monitoring of Customer application for security status for defined security KPIs	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Security Monitoring	S8
578	CAS_2.2.05	Prepare regular security audits and identify issues during and after regular audits	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Audit Readiness	S4
579		Monitoring Services				
580	CAS_2.3.01	Setup job and automation monitoring	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Monitoring setup activity will be performed post Go-Live and after the monitoring elements are available in the production environment and includes ABAP Jobs and BI Process Chains for Monitoring. Customer to provide the list of service elements to be monitored.	Application Monitoring or Customer Application Monitoring	M1, M2
581	CAS_2.3.02	Setup integration and exception monitoring	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Monitoring setup activity will be performed post Go-Live and after the monitoring elements are available in the production environment and includes ABAP Web Services, BDoc, Gateway, HTTP(s), IDoc, Process Integration, RFC/ bRFC/ qRFC/ tRFC, SAP AIF, SLT, SAP Cloud Integration - iflows. Customer to provide the list of service elements to be monitored.	Application Monitoring or Customer Application Monitoring	M1, M2
582	CAS_2.3.03	Setup URL monitoring (certificates and availability)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Customer to provide the URLs for setup. Monitoring setup activity will be performed post Go-Live and after the monitoring elements are available in the production environment.	Application Monitoring or Customer Application Monitoring	M1, M2
583	CAS_2.3.04	Setup real user monitoring	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Monitoring setup activity will be performed post Go-Live and after the monitoring elements are available in the production environment.	Customer Application Monitoring	M2
584	CAS_2.3.05	Setup technical system monitoring	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Monitoring setup activity will be performed in the production environment SAP will apply a standard template for technical system monitoring.	Customer Application Monitoring	M2

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
585	CAS_2.3.06	Generate report for monitoring	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Monitoring or Customer Application Monitoring	M1, M2

586		H - Movement Services for System Conversion and Transition				
587		Transformation Discovery - Technical Preparation Services				
588	MOVE_1.1.02	SAP Readiness Check for SAP S/4HANA	Standard Services	Service can only be applied to the ECC landscape indicated in the contract. Includes implementation of SAP Readiness Check for SAP S/4HANA. Notes in the corresponding system and generation of the required files with subsequent handover of the export file to the customer. Customer must submit the request for SAP Readiness Check report and dashboard generation or SAP will perform this on behalf of the customer. Target scenario for this service is an SAP S/4HANA conversion from SAP ECC system.	n/a	n/a
589	MOVE_1.1.03	Custom Code Analysis - Setup	Standard Services	The service can only be applied during an ECC to SAP S/4HANA conversion or upgrade of a SAP S/4HANA solution landscape. The entire ERP system landscape is evaluated to determine the right approach to provide the setup for a custom code analysis. Required SAP Notes will be implemented. Based on the determined approach, at the end of the service, the customer will be handed over a functional SAP S/4HANA custom code analysis setup in the local S/4HANA system, Remote Central ATC system, or the Custom Code Migration App.	n/a	n/a
590	MOVE_1.1.04	SAP Signavio Process Insights, discovery edition	Standard Services	Service can only be applied to the SAP ECC and SAP S/4HANA landscape indicated in the contract. Includes implementation of the technical prerequisites for SAP Signavio Process Insights, discovery edition in the corresponding system; and generation of the ZIP file with hand over to customer.	n/a	n/a
591	MOVE_1.1.07	SAP Readiness Check for SAP BW/4HANA	Standard Services	The service can only be applied to the SAP BW landscape indicated in the contract. Includes implementation of SAP Readiness Check for SAP BW/4HANA Notes in the corresponding system and generation of the required files with subsequent handover of the export file to the customer. Customer must submit the request for SAP Readiness Check report and dashboard generation or SAP will perform this on behalf of the customer. Target scenario for this service is an SAP BW/4HANA conversion from SAP BW system.	n/a	n/a
592	MOVE_1.1.08	SAP Readiness Check for SAP Datasphere, SAP BW bridge	Standard Services	The service can only be applied to the SAP BW landscape indicated in the contract. Includes implementation of SAP Readiness Check for SAP Datasphere, SAP BW bridge Notes in the corresponding system and generation of the required files with subsequent handover of the export file to the customer. Customer must submit the request for SAP Readiness Check report and dashboard generation or SAP will perform this on behalf of the customer. Target scenario for this service is the transition from SAP BW to SAP Datasphere, SAP BW bridge.	n/a	n/a
593	MOVE_1.1.09	Starter Tools Setup for BW4/HANA conversion	Standard Services	This service is a bundle of multiple tool setups and can only be applied to the SAP BW landscape indicated in the contract. It includes the implementation of the technical requirements in the corresponding system for the execution of the following tool environments: a) SAP BW/4HANA Transfer Cockpit; b) SAP Note Analyzer; c) SAP BW Starter Add-on. Brief explanation of the tools and the deliverable: a) The BW/4HANA Transfer Cockpit is a collection of tools relevant for conversion. The tools are grouped by prepare and realization phases. This includes the precheck, sizing, code scan, scope transfer, and authorization transfer tools to process objects that are not compatible with SAP BW/4HANA. b) The SAP BW and SAP BW/4HANA Note Analyzer provides a clear and consistent process to update a particular component or process of SAP BW or SAP BW/4HANA without implementing support packages. The Note Analyzer is used to install all tools and updates required for a given component or process. c) The first step of the in-place conversion process is to install the SAP BW/4HANA Starter Add-on. After the installation, the several modes are available in the SAP BW system, which define the road to SAP BW/4HANA: BW, Compatibility, B4H and Ready for conversion mode. To help transition the SAP BW system from one mode to the next, the system provides a program that scans the entire system for incompatibilities and creates a to-do list.	n/a	n/a
594		End-To-End Conversion Planning				
595	MOVE_1.6.01	Conversion Planning and Coordination End-To-End	Excluded Tasks	The End-to-end system conversion planning for SAP products refers to the process of converting an existing SAP system to a new software platform. It is a complex task in which all aspects of the system must be considered, including business processes, data migration, security settings and integration with other systems. Planning such a system conversion requires a thorough analysis of the existing system and a detailed roadmap for the transition to the new SAP solution. This includes the identification and prioritization of required system adjustments and configurations, the planning and execution of application tests and process verifications, the creation and documentation of training plans for employees and the definition of rollout strategies. However, it should be noted that an end-to-end system conversion planning requires very specialized expertise and is not part of the providers portfolio.	n/a	n/a
596		Conversion Preparation				
597	MOVE_1.3.01	Sandbox Conversion Project environment setup and operations	Optional Services	Used for building sandbox systems in the private cloud landscape. These temporary systems can be used by Customer to successfully carry out S/4HANA conversion projects. Application uses for scenarios such as trial runs of the S/4HANA conversion, testing S/4HANA conversion with production data, executing multiple technical iterations to familiarize with the process, and also to determine realistic S/4HANA conversion duration. These sandbox systems can be ordered for any duration needed according to the Customer project needs.	n/a	n/a
598		Conversion Execution for ECC and BW system				
599	MOVE_1.3.04	Planning and coordination of the technical system conversion of SAP ERP and SAP BW systems to SAP S/4HANA and SAP BW/4HANA	Additional Service	This service is strongly recommended in addition to the technical system conversion. This managed system conversion approach provides the customer with a dedicated team, partial planning and coordination for the technical execution of the system conversion, including the production cutover planning of the technical conversion. Thus, this service includes a technical planning workshop and the integration of the technical system conversion activities into the customer's overall planning. The overall responsibility for the system conversion (functional conversion, pre- and post-conversion activities) remains with the customer and are not part of this service. This service must be ordered separately for each conversion execution. Once this planning and coordination service has been performed for a system conversion execution, it has to be requested for all further conversion runs, over the entire duration of the conversion project. This service is applicable for SAP ECC and SAP BW system.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
600	BASIC_1.5.20	Technical System Conversion of SAP ERP and SAP BW systems to SAP S/4HANA and SAP BW4/HANA	Additional Service	The term "system conversion" refers to the transition from an older SAP ERP to a current SAP S/4HANA release, or an older SAP BW release to a current SAP BW/4HANA release. This service component alone is a non-managed system conversion approach that only provides the customer with technical execution support without having it planned and coordinated by SAP; therefore, communication between all parties involved is ticket-based only. The Database Migration Option, which is relevant for DB migration from anyDB to SAP HANA, is not part of this service and must be requested separately, if required. This service includes the preparation and execution of the SUM tool for the system conversion, including tasks only SAP can provide. The overall responsibility for the system conversion (functional conversion, pre- and post-conversion activities) remains with the customer and are not part of this service. This item does not include the use of more sophisticated system conversion approaches such as nZDT/ZDO/Downtime Minimization, etc. A standard planned downtime is required for this standard system conversion approach. As this service component alone is a non-managed and ticket-based system conversion approach, it requires the addition of the corresponding planning service (Planning and coordination of the technical system conversion). The integration of other SAP services (in terms of the functional conversion and pre- and post-conversion activities) is also recommended. This service must be ordered separately for each system conversion execution and is only applicable for SAP ECC and SAP BW systems.	n/a	n/a
601		Conversion Execution for NetWeaver Based systems			.	.
602	MOVE_1.7.01	Planning and coordination of the technical system conversion to SAP S/4HANA Foundation	Additional Service	This service is strongly recommended in addition to the technical system conversion. This managed system conversion approach provides the customer with a dedicated team, partial planning and coordination for the technical execution of the system conversion, including the production cutover planning of the technical conversion; therefore, this service includes a technical planning workshop and the integration of the technical system conversion activities into the customer's overall planning. The overall responsibility for the system conversion (functional conversion, pre- and post-conversion activities) remains with the customer and are not part of this service. This service must be ordered separately for each conversion execution. Once this planning and coordination service has been performed for a system conversion execution, it has to be requested for all further conversion runs, over the entire duration of the conversion project. This service is applicable for SAP GTS 11.0. Other SAP products only on request and subject to change.	n/a	n/a
603	MOVE_1.7.02	Technical System Conversion of NetWeaver systems to SAP S/4HANA Foundation	Additional Service	The term "system conversion" refers to the transition from an older SAP NetWeaver based system to the current SAP S/4HANA Foundation release. This service component alone is a non-managed system conversion approach that only provides the customer with technical execution support without having it planned and coordinated by SAP; therefore, communication between all parties involved is purely ticket-based. The Database Migration Option, which is relevant for DB migration from anyDB to SAP HANA, is not part of this service and must be requested separately, if required. This service includes the preparation and execution of the SUM tool for the system conversion, including tasks only SAP can provide. The overall responsibility for the system conversion (functional conversion, pre- and post-conversion activities) remains with the customer and are not part of this service. This item does not include the use of more sophisticated system conversion approaches such as nZDT/ZDO/Downtime Minimization, etc. A standard planned downtime is required for this standard system conversion approach. As this service component alone is a non-managed and ticket-based system conversion approach, it requires the addition of the corresponding planning service (Planning and coordination of the technical system conversion). The integration of other SAP services (in terms of the functional conversion and pre- and post-conversion activities) is also recommended. This service must be ordered separately for each system conversion execution and is applicable for SAP GTS 11.0. Other SAP products only on request and subject to change.	n/a	n/a
604		Functional Conversion Activities			.	.
605	MOVE_1.3.03	Functional Conversion and Conversion Project Management	Excluded Tasks	Excludes all components of a functional conversion as well as pre- and post-conversion activities and the overall project and planning responsibility. The service offering for System Conversion does not include the adaptation and redesign of customer's business processes or any changes or adjustments to customer's specific functional requirements. This includes, for example, tasks such as customer vendor integration, ledger changes and migrations, simplification item handling, custom code remediation, etc. Additionally, System Conversion services do not cover activities prior to or after the technical conversion. This excludes preparation and clean-up activities, process optimization, training and customization of user permissions or special requirements that may occur after the conversion. These activities are not included in the scope of services. Customer takes overall responsibility for the conversion project as well as the resulting overall planning.	n/a	n/a

673		X7 - SAP PI				
674		SAP PI Implementation				
675	TO_PI_1.1.01	Install adapters and software components provided by SAP	Standard Services	Included only for items explicitly specified in the contract/Order Form. This is valid also for additional offerings from SAP such as: ADAPTERS for SAP NW PI 1.1, SAP NW Process Integration, business-to-business add-on 1.0, SAP NW Process Integration Secure Connectivity Add-on 1.0. This does not include efforts for content handling like the import of TPZ files into the ESR.	n/a	n/a
676	TO_PI_1.1.02	Install adapters provided by external partners	Standard Services	Must provide adapter software and licenses. This does not include efforts for content handling like the import of TPZ files into the ESR.	n/a	n/a
677	TO_PI_1.1.03	Configure the required system connections to partner systems	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Customer must provide network connections to target systems.	Application Operations	A1
678	TO_PI_1.1.04	Create SSL views and PSEs	Excluded Tasks		n/a	n/a
679		SAP PI Operations				
680	TO_PI_2.1.02	Monitor application-specific PI functions, e.g. messaging, queues etc.	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Monitoring or Customer Application Monitoring	M1, M2
681	TO_PI_2.1.03	Monitor the message processing in PI (success and performance)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Functional Application Management	F1
682	TO_PI_2.1.04	Monitor communication channels, queues, backlogs of PI (AEX)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Functional Application Management	F1
683	TO_PI_2.1.05	Monitor BPM processes (success and performance)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
684	TO_PI_2.1.06	Configure adapters	Excluded Tasks		n/a	n/a
685	TO_PI_2.1.07	Deal with incorrect messages	Excluded Tasks		n/a	n/a
686	TO_PI_2.1.08	Configure message archiving	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
687	TO_PI_2.1.27	Execute and monitor message archiving	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
688	TO_PI_2.1.11	Role/authorization maintenance (except SAP and initial customer administrator role)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Functional Application Management	F1
689	TO_PI_2.1.16	Maintain users (except for the SAP and initial customer administrator role)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Secure Users & Authorizations	S2
690	TO_PI_2.1.17	Set-up of PI / BPM / AEX housekeeping	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
691	TO_PI_2.1.28	Monitor housekeeping activities of PI / BPM / AEX	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
692	TO_PI_2.1.19	Adjust PO/PI /AEX parameterization and configuration	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	The configuration doesn't cover the realization of integration scenarios (content development).	Application Operations	A1
693	TO_PI_2.1.21	Maintain the system landscape directory (SLD)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Related to PI scenarios.	Application Operations	A1
694	TO_PI_2.1.21A	Configure bridge from ECS system landscape directory (SLD) to customer SLD	Standard Services	SLD data will be forwarded to the customer-defined SLD instance. No SLD data filtering is possible.	n/a	n/a
695	TO_PI_2.1.22	Apply SAP basic application content update to the Enterprise Service Repository (ESR)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
696	TO_PI_2.1.23	Handle errors and analyze root cause for incorrect message processing in PI (AEX)	Excluded Tasks		n/a	n/a
697	TO_PI_2.1.24	Check PI / PO / AEX readiness after changes (upgrades, patches, notes)	Excluded Tasks		n/a	n/a
698	TO_PI_2.1.25	Configure the required system connections to partner systems	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
699	TO_PI_2.1.26	Transport management of PI objects	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
749		X11 - SAP Cloud Connector			.	.
750		Installation and Configuration			.	.
751	TO_SCC_1.1.02	Configuration - Enable outbound connection via LoadBalancer	Standard Services	Enable Cloud Connector to connect with SAP Business Technology Platform application domains / IP ranges or SAP Business Network domains / IP ranges (e.g.: Ariba, LBN, AIN)	n/a	n/a
752	TO_SCC_1.1.04	Configuration - On-premise resources (OData services) customer wants to use in SAP Business Technology Platform - BTP (formerly SAP Cloud Platform)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	For X43 - SAP Forms by Adobe (Adobe Document Services/ADS) only: Create destination for ABAP backend system (Mapping virtual to internal system); Configure accessible resources /sap/bc/fp and /sap/bc/fpads.	Application Operations or Data Lifecycle Management	A1, D3
753	TO_SCC_1.1.05	Monitoring - SCC service monitoring (Linux / Windows Services)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Can be done in Administrator UI or by executing a manual status check command or via HCP Administrator Cockpit. Manual monitoring; effort based per execution.	Application Operations or Data Lifecycle Management	A1, D3
754	TO_SCC_1.1.06	Define and provide two user groups (Cloud Portal Admin, Cloud Portal User)	Standard Services		n/a	n/a
755	TO_SCC_1.1.07	Tunnel Availability monitoring	Standard Services	For version 2.12 and higher only. Service provider can monitor tunnel availability for informational purposes only but is not covered under the Service Level Agreement.	n/a	n/a
756	TO_SCC_1.1.11	SNC Setup for SAP Cloud Connector	Additional Service	Customer to provide the requirements/details to configure the SNC on SCC and backend systems.	n/a	n/a
757		X12 - SAP Business Technology Platform - BTP (formerly SAP Cloud Platform) Integration - Data Services Agent (BTPI-DS) (Formerly HCI-DS)			.	.
758		Installation and Configuration			.	.
759	TO_BTPI_DS_1.1.01	Install SAP BTPI - Data Service agent	Standard Services	Installation requires existing or relevant subscription and/or inclusion as part of the contract.	n/a	n/a
760	TO_BTPI_DS_1.1.02	Configuration - Enable outbound connection via LoadBalancer to connect with BTPI	Standard Services		n/a	n/a
761	TO_BTPI_DS_1.1.03	Configuration - Establish connection to customer's cloud account	Standard Services	Need access to BTPI portal or service provider will request the configuration file from customer. Configuration performed at OS level. Provider will verify that agent status is green in BTPI portal.	n/a	n/a
762	TO_BTPI_DS_1.1.04	Configuration - Business backend preparation steps for BTPI consumption	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
763		Monitoring Set-up			.	.
764	TO_BTPI_DS_1.2.01	Monitoring set-up for process level availability - Nagios	Standard Services		n/a	n/a
765		Data Handling and Data Services			.	.
766	TO_BTPI_DS_1.3.01	Migrate or replicate data between data stores	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
767		X13 - SAP Fiori			.	.
768		Installation and Configuration			.	.
769	TO_FIORI_1.1.01	Install application specific packages in respective SAP Systems	Standard Services	Initial set-up in managed system.	n/a	n/a
770	TO_FIORI_1.1.03	Configuration - Web Dispatcher Fiori App redirects	Standard Services	SSL is a prerequisite for this task. Scope during Initial Provisioning includes all systems defined in the initial contract. If more systems are added a Change Request (CR) is required and extra charges may apply. For systems migrated to environments for which SAP is the Service Provider, it is the customer's responsibility to configure the Web Dispatcher for the migrated system; this configuration can be delivered through a separately contracted cloud onboarding and migration service.	n/a	n/a
771	TO_FIORI_1.1.10_AE	Configuration - Web Dispatcher Fiori App redirects - additional requests	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Efforts for additional requests. Includes SSL configuration and certificate handling and is limited to technical SAP Fiori Launchpad enablement for additional clients or products other than SAP S/4HANA only.	Application Operations	A1
772	TO_FIORI_1.1.05	Configuration - HANA XS Engine Web Dispatcher	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SSL is a prerequisite for this task. Scope during Initial Provisioning includes all systems defined in the initial contract.	Application Operations	A1
773	TO_FIORI_1.1.09	Initial enablement of Fiori launchpad including all required connectivity set-up	Standard Services	Includes SAP Fiori Launchpad enablement for One (1) client (client 100) per SAP S/4HANA system for Greenfield deployments. This includes the activation of predefined sample SAP Fiori apps to validate SAP Fiori Launchpad enablement. For systems migrated to environments which use SAP as the service provider, it is customer's responsibility to enable existing SAP Fiori app(s) and is covered by a separately contracted cloud onboarding and migration service.	n/a	n/a
774	TO_FIORI_1.1.06	Re-enable Fiori launchpad including all required connectivity set-up	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Covers re-enablement for SAP Enterprise Search, adjusting required connection configuration, and standard App activation.	Application Operations	A1
775	TO_FIORI_1.1.07	Configuration - Fiori applications	Excluded Tasks	In some situations service provider might be able to support the customer using an Application Management service, however due to the large variety of possible scenarios this item has been generally excluded from the service; customers should seek assistance via other SAP services.	n/a	n/a
776	TO_FIORI_1.1.11_AE	Enable Fiori Launchpad for the standard Fiori applications for additional business clients, brownfield / migration deployments or SAP products other than S/4HANA	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Includes example Fiori Catalog, example Fiori Group and example PFCG role.	Application Operations	A1
777	TO_FIORI_1.1.13	Activate standard Fiori Applications based on SAP business roles	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Covers the activation of standard SAP Fiori applications based on SAP standard business (template) roles, i.e. roles shipped by SAP that follow the naming convention SAP_BR_<...>. A maximum of four SAP standard business roles can be selected. A package can be defined for the activation. The activation is only applicable to trial/sandbox and development systems. Custom roles or custom applications are excluded from the activation. The activation of single apps is not possible.	Application Operations	A1

1151	TO_BTP_1.3.09	Enable, administer and operate technical connectivity between S/4HANA and BTP MCM	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Focus on the initial setup and recurring tasks necessary to enable, administer and operate the technical connectivity between S/4HANA PCE for Utilities and the Measurement Concept Management (MCM) of the SAP Cloud for Utilities Foundation implemented in SAP BTP.	Continuous Operations	A5
1152		Portal				
1,153	TO_BTP_1.4.01	Create or change SAP Fiori Launchpad sites (site directory and site settings)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
1,154	TO_BTP_1.4.02	Create or change roles	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations or Secure Users & Authorizations	A1, S2
1,155	TO_BTP_1.4.03	Create or change groups including role assignment	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations or Secure Users & Authorizations	A1, S2
1,156	TO_BTP_1.4.04	Create or change catalogs including role assignment	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations or Secure Users & Authorizations	A1, S2
1,157	TO_BTP_1.4.05	Enable SAP Fiori sample apps and perform required connectivity set-up	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
1158		Integration Suite				
1,159	TO_BTP_1.5.01	Test execution for every update of SAP Business Technology Platform - BTP (formerly SAP Cloud Platform) Integration	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Perform the automated execution of regression test scripts whenever an update of SAP Cloud Platform takes place.	Cloud Integration	T2
1,160	TO_BTP_1.5.02	Create test automation scripts for SAP Business Technology Platform - BTP (formerly SAP Cloud Platform)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Create automated test scripts based on customer i-Flows with sample input & output messages.	Cloud Integration	T2
1,161	TO_BTP_1.5.03	Application of changes (Test automation script modification)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Perform modification of test automation scripts.	Cloud Integration	T2
1,162	TO_BTP_1.5.04	Perform maintenance and update of automated test cases	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		SAP S/4HANA	T3

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
1163		X43 - SAP Forms by Adobe (Adobe Document Services/ADS)	SAP Cloud Connector and SAP Business Technology Platform - BTP (formerly SAP Cloud Platform) are prerequisites.			
1164		Installation and Configuration				
1,165	TO_ADS_1.1.02	Data Migration from on premise ADS to ADS on BTP - customer account	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Applicable if SAP Forms by Adobe (Adobe Document Services/ADS) is configured in an customer owned BTP account.	Application Operations	A1
1,166	TO_ADS_1.1.02A	Data Migration from on premise ADS to ADS on BTP - SAP account	Standard Services	Applicable for contracts signed before 15-July-2024. Only applicable when SAP Forms by Adobe (Adobe Document Services/ADS) is set up in SAP-owned global BTP account.	n/a	n/a
1,167	TO_ADS_1.1.03	Configure Fonts and Print Information using XDC and XCI Files - customer account	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Applicable if SAP Forms by Adobe (Adobe Document Services/ADS) is configured in an customer owned BTP account.	Application Operations	A1
1,168	TO_ADS_1.1.03A	Configure Fonts and Print Information using XDC and XCI Files - SAP account	Standard Services	Applicable for contracts signed before 15-July-2024. Only applicable when SAP Forms by Adobe (Adobe Document Services/ADS) is set up in SAP-owned global BTP account.	n/a	n/a
1,169	TO_ADS_1.1.04	Configure document security - customer account	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Applicable if SAP Forms by Adobe (Adobe Document Services/ADS) is configured in an customer owned BTP account.	Application Operations	A1
1,170	TO_ADS_1.1.04A	Configure document security - SAP account	Standard Services	Applicable for contracts signed before 15-July-2024. Only applicable when SAP Forms by Adobe (Adobe Document Services/ADS) is set up in SAP-owned global BTP account.	n/a	n/a
1,171	TO_ADS_1.1.05	Configure job profiles- customer account	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Applicable if SAP Forms by Adobe (Adobe Document Services/ADS) is configured in an customer owned BTP account.	Application Operations	A1
1,172	TO_ADS_1.1.05A	Configure job profiles - SAP account	Standard Services	Applicable for contracts signed before 15-July-2024. Only applicable when SAP Forms by Adobe (Adobe Document Services/ADS) is set up in SAP-owned global BTP account.	n/a	n/a
1,173	TO_ADS_1.1.06	End-to-end enablement of SAP BTP service SAP Forms by Adobe for S/4HANA systems - SAP managed BTP account only	Standard Services	Applicable for contracts signed before 15-July-2024. SAP Forms by Adobe (Adobe Document Services/ADS) enablement including all required sub steps and activities: Create and configure an RFC destination for SAP Forms by Adobe in AS ABAP; Configure ICF Service to enable HTTP communication with SAP Forms by Adobe; Create the service user ADS_AGENT. Only applicable when SAP Forms by Adobe (Adobe Document Services/ADS) is set up in SAP-owned global BTP account.	n/a	n/a
1,174	TO_ADS_1.1.07	End-to-end enablement of SAP BTP service SAP Forms by Adobe for NetWeaver based systems using customer-owned BTP global account	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	SAP Forms by Adobe (Adobe Document Services/ADS) enablement including all required sub steps and activities: Create and configure an RFC destination for SAP Forms by Adobe in AS ABAP; Configure ICF Service to enable HTTP communication with SAP Forms by Adobe; Create the service user ADS_AGENT. Customer to provide credentials for BTP global / subaccount to be used.	Application Operations	A1
1175		X44 - SAP Enterprise Threat Detection (ETD)				
1176		Build Phase				
1,177	TO_ETD_1.1.01	Install ETD on SAP HANA XS	Standard Services	Create specific SAP HANA tenant for ETD. Import ETD delivery unit in HANA. Import ETD content package. Enable mandatory ETD background jobs.	n/a	n/a
1,178	TO_ETD_1.1.02	Install and configure ETD Streaming solution	Standard Services	Initialize ETD Launchpad; install and configure ETD Streaming applications including Apache Kafka and Zookeeper, initial configuration of ETD Streaming certificates.	n/a	n/a
1,179	TO_ETD_1.1.03	Configure provisioning logs from SAP NetWeaver ABAP/JAVA based source system	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Excludes prerequisite SAP Notes implementation.	Enterprise Threat Detection	S9
1,180	TO_ETD_1.1.04	Enable ETD SAP ECS supported non-Netweaver based source systems - Build Phase	Standard Services	Intended for: SAP HANA (ECS hosted); SAP Cloud Connector (ECS hosted); BTP Accounts (NEO,CF); S/4HANA Public; SAP Commerce; SAP Sales Cloud, SAP Service Cloud and SAP Analytic Cloud. Customer to provide: URLs, technical users and credentials per source systems.	n/a	n/a
1,181	TO_ETD_1.1.06	Configure provisioning logs from other source systems including OS	Excluded Tasks		n/a	n/a
1,182	TO_ETD_1.1.07	Enable mandatory ETD background jobs	Standard Services		n/a	n/a
1,183	TO_ETD_1.1.08	Encrypt SSL connection between ETD source systems (ABAP/HANA/JAVA) and ETD Streaming	Standard Services		n/a	n/a
1,184	TO_ETD_1.1.09	Set the initially agreed retention times (Kafka, cold storage, HANA hot and warm storage) where applicable.	Standard Services		n/a	n/a
1,185	TO_ETD_1.1.10	Install and setup ETD LogCollector - stand alone	Standard Services	Used when ETD Streaming is hosted by SAP Business Transformation Platform and source systems are hosted in Enterprise Cloud Services.	n/a	n/a
1186		Run Phase				
1,187	TO_ETD_1.2.01	Schedule/Adjust individual ETD HANA background jobs	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Enable optional ETD background jobs.	Enterprise Threat Detection	S9
1,188	TO_ETD_1.2.02	Adjust individual ABAP source system sending schedules jobs (frequency, type of logs)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Enterprise Threat Detection	S9
1,189	TO_ETD_1.2.03	Import New ETD Content Packages	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Enterprise Threat Detection	S9
1,190	TO_ETD_1.2.04	Define ETD namespaces and locations	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Enterprise Threat Detection	S9
1,191	TO_ETD_1.2.06	Security monitoring for alerts created in ETD	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Perform ETD security monitoring for the agreed patterns for the logs from customer system.	Enterprise Threat Detection	S9
1,192	TO_ETD_1.2.07	Enhanced Analyses	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Execute proactive threat hunting and analyze specific suspicion.	Enterprise Threat Detection	S9
1,193	TO_ETD_1.2.08	Content Adaption	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Create/update and implement new/updated and agreed pattern.	Enterprise Threat Detection	S9
1,194	TO_ETD_1.2.09	Upgrade ETD on SAP HANA	Standard Services	Import new ETD delivery unit in HANA.	n/a	n/a
1,195	TO_ETD_1.2.10	Re-enable/re-connect ABAP/Java source system	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Reconnect ABAP/Java source systems after source system upgrades/migrations.	Enterprise Threat Detection	S9
1,196	TO_ETD_1.2.12	Upgrade ETD Streaming	Standard Services	Upgrade ETD streaming including Apache Kafka, Zookeeper.	n/a	n/a
1,197	TO_ETD_1.2.13	Monitor ETD HANA XS Mandatory background jobs	Standard Services		n/a	n/a
1,198	TO_ETD_1.2.14	Monitor ETD HANA XS optional and custom background jobs	Excluded Tasks		n/a	n/a
1,199	TO_ETD_1.2.16	Change of ETD Streaming parameters	Standard Services	Parameters where the customer has no access/possibility to change.	n/a	n/a
1,200	TO_ETD_1.2.17	Renew expired certificates for the encrypted SSL connection between ETD source systems (ABAP/HANA/JAVA) and ETD Streaming	Standard Services		n/a	n/a

1204		X45 - Zscaler ZPA Connector				
1205		Implementation and Configuration				
1206	TO_ZPA_1.1.01	Install ZPA Connector and required OS packages	Optional Services		n/a	n/a
1207	TO_ZPA_1.1.02	Configure ZPA Connector	Optional Services		n/a	n/a
1208	TO_ZPA_1.1.03	Allowlist ZPA Connector IP addresses in LoadBalancer	Optional Services		n/a	n/a
1209	TO_ZPA_1.1.04	Configure connector in ZPA Admin Console	Excluded Tasks		n/a	n/a
1210	TO_ZPA_1.1.05	Provision ZPA Connector provisioning keys	Excluded Tasks		n/a	n/a
1211	TO_ZPA_1.1.06	Install client software	Excluded Tasks		n/a	n/a
1212	TO_ZPA_1.1.07	Client and end-user support	Excluded Tasks		n/a	n/a
1213	TO_ZPA_1.1.08	Sizing of required number of connectors	Excluded Tasks		n/a	n/a
1214	TO_ZPA_1.1.09	Integration with customer's IDP (SAML)	Excluded Tasks		n/a	n/a
1215	TO_ZPA_1.1.10	Install provisioning keys	Optional Services		n/a	n/a
1216		X46 - SAP Omnichannel Banking (OCB)				
1217		Implementation and Configuration				
1218	TO_OCB_1.1.01	Install Tomcat	Optional Services		n/a	n/a
1219	TO_OCB_1.1.02	Install OCB software Retail Banking or Business Banking (Digital)	Standard Services		n/a	n/a
1220	TO_OCB_1.1.03	Deploy Business Central and deploy Platform with customized WAR files	Excluded Tasks	Provider performs task for customer for SAP product WAR files and Customer provided customized WAR files	n/a	n/a
1221	TO_OCB_1.1.04	Develop WAR files	Excluded Tasks		n/a	n/a
1222		X48 - Redwood RunMyJobs				
1223		Installation and Configuration				
1224	TO_RMJ_1.1.01	Install Redwood platform agent and configure as Secure gateway	Standard Services	Installation and configuration of the secure-gateway agent on dedicated VM. Installation of Secure gateway agent on servers running managed systems is not allowed	n/a	n/a
1225	TO_RMJ_1.1.01A	Install Redwood OS platform agent (excluding Secure Gateway functionality)	Standard Services	Installation and configuration of the OS platform agent on SAP application server VM. This agent is not supposed to be used as a Secure Gateway.	n/a	n/a
1226	TO_RMJ_1.1.02	Monitor RunMyJobs platform agent	Standard Services		n/a	n/a
1227	TO_RMJ_1.1.03	Restart RunMyJobs platform agent	Standard Services		n/a	n/a
1228	TO_RMJ_1.1.04	Scheduling of jobs	Excluded Tasks		n/a	n/a
1229	TO_RMJ_1.1.05	Manual design and implementation of process definitions	Excluded Tasks		n/a	n/a
1230	TO_RMJ_1.1.06	Integrate SAP system to Redwood RunMyJobs Cloud	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Connect business client to the customer tenant. Technical user for communication needs to be provided by customer.	Advanced Job Management	M3
1231	TO_RMJ_1.1.07	Integrate SAP System to Redwood Solution	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Connect business client to the customer tenant. Technical user for communication needs to be provided by the customer.	Advanced Job Management	M3
1232	TO_RMJ_1.1.08	Import SAP objects into Redwood Solution	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	E.g., execution of any predefined Process Definition starting with SAP_BW_IMA_IPI_Import*). Relevant source objects and storage location in Redwood need to be provided by customer.	Advanced Job Management	M3
1233	TO_RMJ_1.1.09	Align on jobs and KPIs to be monitored and threshold levels - includes monitoring configuration in Redwood Solution	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Jobs to be named by customer. Monitoring concept is developed by customer and service provider in a joint effort.	Advanced Job Management	M3
1234	TO_RMJ_1.1.10	Monitor of service availability and service connection to Redwood tenant	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Advanced Job Management	M3
1235	TO_RMJ_1.1.11	Operate job monitoring based on the designed monitoring concept	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Advanced Job Management	M3
1236	TO_RMJ_1.1.12	Technical Root Cause Analysis (RCA) in case of job errors and implement needed changes	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Advanced Job Management	M3
1237	TO_RMJ_1.1.13	User and Role Management within Redwood Solution	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Only applicable if access to Redwood tenant is provided by customer.	Advanced Job Management	M3
1238		X49 - SMTP Relay to Office365				
1239		Installation and Configuration				
1240	TO_SMTP_1.1.01	Install smtp relay and required OS packages	Standard Services		n/a	n/a
1241	TO_SMTP_1.1.02	Configure smtp relay servers and LoadBalancers	Standard Services		n/a	n/a
1242	TO_SMTP_1.1.03	Allowlist of smtp relay IPs/FQDN in LoadBalancer and NSG	Standard Services		n/a	n/a
1243	TO_SMTP_1.1.04	Provisioning of certificates for TLS and authentication	Excluded Tasks		n/a	n/a
1244	TO_SMTP_1.1.05	Configure systems to use smtp relay server	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
1245	TO_SMTP_1.1.06	Configure O365 connector in O365	Excluded Tasks		n/a	n/a
1246	TO_SMTP_1.1.07	Install certificates	Standard Services		n/a	n/a
1247	TO_SMTP_1.1.08	Restart after failure	Standard Services		n/a	n/a
1248	TO_SMTP_1.1.09	Monitor smtp relay service	Standard Services		n/a	n/a
1249		X50 - SAP Data Custodian (SDC) - Integration Service	Subject to availability on a case-by-case basis. SDC provides a subset of components which are each ordered separately.			
1250		Transparency and Control Service (SAP S/4 HANA, ECC)				
1251	TO_SDC_1.1.01	Install on SAP S/4 HANA or ECC	Standard Services	Install on existing SAP S/4 HANA or ECC system with required version provided by customer for SDC integration.	n/a	n/a
1252	TO_SDC_1.1.02	SAP system profile parameters	Standard Services	Service Provider is responsible for executing this task as it can have an impact on system performance and availability. Includes recommendations for technical system parameters. Provider will also adjust parameters by customer request except for certain standardized settings required to maintain system stability or security. For SAP Data Custodian Transparency and Control to work, Service Provider needs to set profile parameter - downtime is required due to system restart.	n/a	n/a
1253	TO_SDC_1.1.03	Enable outbound connection via LoadBalancer	Standard Services	Allow outbound connection to SDC tenant. Customer to provide the URL for SDC tenant to allow outbound connection; customer will get this from customer's SDC team during the onboarding process.	n/a	n/a
1254		Transparency and Control Service for Infrastructure (Hyperscaler)				
1255	TO_SDC_1.1.04A	Create infrastructure components on respective hyperscaler	Standard Services	There are infrastructure components (EventHub, PUB/SUB,S3 etc.) for each Hyperscaler which are required to enable the integration service.	n/a	n/a
1256	TO_SDC_1.1.04	Onboarding activities including configuring tenant with principal masking, and assessments/questionnaires	Excluded Tasks	Performed by customer's SDC team.	n/a	n/a
1257	TO_SDC_1.1.05	Configure the tenant with the SAP S/4HANA system	Excluded Tasks		n/a	n/a
1258	TO_SDC_1.1.06	Configure application synchronization for Principal[User] attributes	Excluded Tasks		n/a	n/a

1291	TO_SCS_1.1.01	Install Content Server	Standard Services		n/a	n/a
1292	TO_SCS_1.1.02	Install specific parameter definition	Standard Services		n/a	n/a
1293	TO_SCS_1.1.03	Content Server - System Copy	Standard Services	Up to Six (6) refreshes per SID, per contract year, are included. Additional refreshes are available on chargeable basis via TO_SCS_1.1.03A. Only available after initial build phase is complete. Note: Customer must provide additional information which will be aligned during request processing.	n/a	n/a
1294	TO_SCS_1.1.03A	Content Server - System Copy - Additional Requests	Additional Service	Additional refreshes beyond entitlement described in TO_SCS_1.1.03. Only available after initial build phase is complete. Note: Customer must provide additional information which will be aligned during request processing.	n/a	n/a
1295		Configure repositories				
1296	TO_SCS_1.2.01	Generate server certificate (in case of SSL enablement)	Standard Services	After CA signing of SAPSSLs pse, certificate should be generated.	n/a	n/a
1297	TO_SCS_1.2.02	Add server certificate to SYSTEM PSE, SSL Server standard PSE in Strust transaction (in case of SSL enablement)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Per customer request.	Application Operations	A1
1298	TO_SCS_1.2.03	Technical configuration of repositories in OAC0	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Strategic/conceptual decisions to be made by customers/consulting.	Application Operations	A1
1299	TO_SCS_1.2.04	Connection test via RSCMST	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Application Operations	A1
1300	TO_SCS_1.2.05	Set SAPR3 password in customer's backend system	Standard Services		n/a	n/a
1301		Patch Update				
1302	TO_SCS_1.3.01	SP update for content server version	Standard Services		n/a	n/a
1303	TO_SCS_1.3.02	SP update for MaxDB database	Standard Services		n/a	n/a
1304		Version Upgrade				
1305	TO_SCS_1.4.01	Pre-checks for repository connection	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Connection test via RSCMST for all given repositories needs to be done.	Application Operations	A1
1306	TO_SCS_1.4.02	Technical Upgrade procedure - for releases up to 7.53	Additional Service	For upgrades up to release 7.53.	n/a	n/a
1307	TO_SCS_1.4.02A	Technical Upgrade procedure	Standard Services	For upgrades from 7.53 to 7.54 and beyond.	n/a	n/a
1308	TO_SCS_1.4.03	Post-upgrade configuration changes for repositories - for releases up to 7.53	Standard Services	For upgrades up to release 7.53.	n/a	n/a
1309	TO_SCS_1.4.03A	Post-upgrade configuration changes for repositories	Standard Services	For upgrades from 7.53 to 7.54 and beyond.	n/a	n/a
1310	TO_SCS_1.4.04	Technical post-checks for repository connection	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Connection test via RSCMST for all given repositories needs to be done.	Application Operations	A1
1311	TO_SCS_1.4.05	Functional validation of repositories	Excluded Tasks		n/a	n/a
1312		X54 - SAP HANA Cockpit 2.0				
1313		Installation and Configuration				
1314	TO_HANA_CP_1.1.03	Add and /Maintain resources (ex: HANA Systems) and resource groups	Excluded Tasks	Configure HANA cockpit deployed on managed landscape to manage HANA systems at customer premises. Customer can perform this task with a user provided by service provider.	n/a	n/a
1315	TO_HANA_CP_1.1.04	Monitor database resource consumption of HANA Cockpit	Standard Services	To detect issues in technical operations.	n/a	n/a
1316	TO_HANA_CP_1.1.05	User management	Excluded Tasks	Customer must maintain their users for HANA Cockpit.	n/a	n/a
1317	TO_HANA_CP_1.1.06	Update and upgrade of HANA Cockpit	Standard Services		n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
1318		X55 - SAP Focus Run				
1319		Configuration				
1320	TO_FRUN_1.1.07	Connect the first managed system(s) to customer FRUN	Standard Services	This task includes initial one-time preparations for FRUN connectivity including connection tests, exchange of certificate information, user provisioning, SLD data forwarding, etc. This task can be also used to change any existing connection details like certificate, user, hostname.	n/a	n/a
1321	TO_FRUN_1.1.08	Connect subsequent managed system(s) to customer FRUN	Standard Services	This task can be requested if at least one other managed host was already successfully connected to the FRUN with the preceding task ID.	n/a	n/a
1322	TO_FRUN_1.1.06	Configure SSI and monitoring in FRUN	Excluded Tasks		n/a	n/a
1323		X56 - SAP S/4 HANA Integration Tasks for RISE with SAP PCE				
1324		Configuration				
1325	TO_S4H_1.1.01_PCE	Configure Outbound internet proxy setting	Standard Services	Default integration tasks during provisioning only.	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
1340		X56 - SAP Teamcenter by Siemens	Tasks and services for SAP Teamcenter by Siemens are restricted to existing Customers and not currently available for new Customers.			
1341		Installation and Configuration				
1342	TO_TC_1.1.03	CAD integration (Solidworks, NX etc.)	Excluded Tasks	Client builds of CAD integration are not included. Installation of the CAD integrations are included as part of the License Feature Extension Service as these are additional add-ons to the base build.	n/a	n/a
1343	TO_TC_1.1.04	Build client	Excluded Tasks	All 4-Tier client builds on customer desktops are excluded.	n/a	n/a
1344	TO_TC_1.1.05	BMIDE client	Excluded Tasks	Customer responsible for managing the BMIDE installation on their desktop.	n/a	n/a
1345	TO_TC_1.1.08	Restart Teamcenter infrastructure	Standard Services	As part of planned maintenance or issue resolution.	n/a	n/a
1346	TO_TC_1.1.09	Rebuild indexing service	Standard Services	If indexes need to be rebuilt or repaired for Teamcenter environment.	n/a	n/a
1347	TO_TC_1.1.12	Update / patch Teamcenter components - minor components only	Standard Services	Minor version/patch update of the Teamcenter application. (E.g.: X.2.1 to X.2.2, X.2.1 to X.3.2). Technical upgrade only.	n/a	n/a
1348	TO_TC_1.1.13	Major version upgrade of Teamcenter components - technical upgrade only	Additional Service	Major version upgrade of the Teamcenter application only (E.g.: Teamcenter 14.2 to 2312 or 2312 to 2406 etc).	n/a	n/a
1349	TO_TC_1.1.14	License Feature Extension	Additional Service	Extend the installed features of the Teamcenter application to include elements purchased by the customer outside those of the standard build. Subject to assessment and approval by Service Provider	n/a	n/a
1350	TO_TC_1.1.19	Create new users	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Creation of new client user in the system. For bulk population of the Teamcenter system using the Make_user scripts and Excel based User / Role / Group definition template. Customer is responsible for the population of the template; Service Provider will execute the scripts.	Application Operations for SAP Teamcenter by Siemens	A4
1351	TO_TC_1.1.20	Create new groups	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Creation of new client groups in the system. For bulk population of the Teamcenter system using the Make_user scripts and Excel based User / Role / Group definition template. Customer is responsible for the population of the template; Service Provider will execute the scripts.	Application Operations for SAP Teamcenter by Siemens	A4
1352	TO_TC_1.1.21	Create new roles	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Creation of new client role groups in the system. For bulk population of the Teamcenter system using the Make_user scripts and Excel based User / Role / Group definition template. Customer is responsible for the population of the template; Service Provider will execute the scripts.	Application Operations for SAP Teamcenter by Siemens	A4
1353	TO_TC_1.1.22	Apply ADA license configuration	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Manage user license assignment within the application. ADA licenses are required for complex data access scenarios where specific licenses are required to be able to view and consume information. Requires user administration and license assignment.	Application Operations for SAP Teamcenter by Siemens	A4
1354	TO_TC_1.1.23	Teamcenter license assignment	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Management and application of licenses to users within Teamcenter.	Application Operations for SAP Teamcenter by Siemens	A4
1355	TO_TC_1.1.24	Activate/de-activate users	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Activating and deactivating user accounts. A deactivated account will no longer be able to login to Teamcenter, however data owned or records about the user are retained in the system. Unused licenses are returned to the pool.	Application Operations for SAP Teamcenter by Siemens	A4
1356	TO_TC_1.1.25	Deploy BMIDE template - Hot Deployment	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Following the configuration extension of Teamcenter, a deployment package is created by the customer for deployment. The BMIDE application is then used to trigger a deployment of the configuration in to the specific environment required. Only for Hot Deployments, limited to non-schema changes to Business Objects, Properties, Status, Unit of Measure, LOV and Rules.	Application Operations for SAP Teamcenter by Siemens	A4
1357	TO_TC_1.1.25A	Deploy BMIDE template - Cold Deployment	Standard Services	Following the configuration extension of Teamcenter, a BMIDE deployment package is created by the customer for cold deployment and requires OS level access to execute the deployment. Customer can request up to Twelve (12) BMIDE cold deployments per system, per calendar year. Additional requests are available as a billable service using TO_TC_1.1.25B. Customer is responsible for costs to restore a failed environment if the environment has failed due to customer error and/or customer package error.	n/a	n/a
1358	TO_TC_1.1.25B	Deploy BMIDE template - Cold Deployment - additional requests	Additional Service	Additional requests beyond entitlement described in TO_TC_1.1.25A	n/a	n/a
1359	TO_TC_1.1.27	Manage BMIDE template	Excluded Tasks	Customer responsibility to manage and maintain the source BMIDE template and to verify the template being deployed.	n/a	n/a
1360	TO_TC_1.1.29	Create new volume from Teamcenter Application	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Create a new volume within existing server through Teamcenter application.	Application Operations for SAP Teamcenter by Siemens	A4
1361	TO_TC_1.1.30	Setup volume access	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Enable user access to Teamcenter volume.	Application Operations for SAP Teamcenter by Siemens	A4
1362	TO_TC_1.1.31	Change group volume access	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Change group access to Teamcenter volume.	Application Operations for SAP Teamcenter by Siemens	A4
1363	TO_TC_1.1.34	Administrate locked workflows	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Resolve locked workflows.	Application Operations for SAP Teamcenter by Siemens	A4
1364	TO_TC_1.1.36	Troubleshoot Teamcenter system performance issues (technical root causes within cloud service scope)	Standard Services	Based on the result of an initial assessment. Troubleshooting by Service Provider is only performed in situations caused by technical issues within the service scope and where the system performance lies outside usual and expectable behavior (e.g. as it has shown in the past in comparable load situations).	n/a	n/a

Row	Identifier	Task	Responsibility	Remarks	CAS Package	Package Code
1365	TO_TC_1.1.37	Create classification hierarchy	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Create structure inside Teamcenter that enable the user to associate a business object for the purpose of reuse, easy identification or definition of common parts structures.	Application Operations for SAP Teamcenter by Siemens	A4
1366	TO_TC_1.1.38	Create new classification attribute	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Create information required about business objects being classified under this branch of the hierarchy.	Application Operations for SAP Teamcenter by Siemens	A4
1367	TO_TC_1.1.39	Classify information	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Ability to associate and populate the business object to the classification structure.	Application Operations for SAP Teamcenter by Siemens	A4
1368	TO_TC_1.1.40	Remove classified data	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Removal of an object classification.	Application Operations for SAP Teamcenter by Siemens	A4
1369	TO_TC_1.1.41	Remove classified hierarchies	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Remove branches of the classification structure.	Application Operations for SAP Teamcenter by Siemens	A4
1370	TO_TC_1.1.42	Workflow import	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Import workflows.	Application Operations for SAP Teamcenter by Siemens	A4
1371	TO_TC_1.1.43	Workflow export	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Export workflows.	Application Operations for SAP Teamcenter by Siemens	A4
1372	TO_TC_1.1.44	New user creation in BGS/GS - with operator role, Active Integration Gateway	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Configure new operator account to enable access to BGS and GS Admin Console.	SAP Applications Operations for SAP Teamcenter by Siemens	A4
1373	TO_TC_1.1.45	Deploy Pipelines - development environment	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.	Deploy configuration packages for integration. Customer can deploy pipelines using Pipeline designer installed on their machines.	SAP Applications Operations for SAP Teamcenter by Siemens	A4
1374	TO_TC_1.1.46	Deploy Pipelines - production environment	Standard Services	Move pipelines from development (DEV) environment to production (PRD) environment.	n/a	n/a
1375	TO_TC_1.1.47	Create/Design/Modify pipelines	Excluded Tasks	Support for designing/modifying/developing new pipelines.	n/a	n/a
1376	TO_TC_1.1.48	Monitor/Restart the AIG queue	Excluded Tasks	Monitoring and administration (start/stop) of AIG queue.	n/a	n/a
1377	TO_TC_1.1.49	Debug failed transfers - outbound/inbound	Excluded Tasks	Resolve unhandled issues with integration packages from Teamcenter.	n/a	n/a
1378	TO_TC_1.1.50	Client network based Module Service (dispatcher)	Excluded Tasks	Installing and managing client network based module services is not included. Customer is responsible for these activities.	n/a	n/a
1379	TO_TC_1.1.51	Build Teamcenter dispatcher, scheduler client, and module on new dispatcher server	Standard Services	Translation use case. Install ootb dispatcher scheduler, client, and module on dispatcher server for CAD translations.	n/a	n/a
1380	TO_TC_1.1.52	Run dispatcher admin utilities	Standard Services	Applicable for both CAD and non-CAD dispatcher. Run ootb dispatcher administration client utilities.	n/a	n/a
1381	TO_TC_1.1.53	Configure changes on dispatcher	Standard Services	Applicable for both CAD and non-CAD dispatcher. Configuration changes on scheduler, module, and client	n/a	n/a
1382	TO_TC_1.1.54	Troubleshoot failed translations	Excluded Tasks	Teamcenter Dispatcher related. Analyze and troubleshoot the failed or stuck translations in not in scope.	n/a	n/a
1383	TO_TC_1.1.55	System refresh of Teamcenter - Non-Production system from Production system	Additional Service	Non-Production Teamcenter hub system to be refreshed must have same architecture (e.g. DB size and volume size must be same). Non-Production Teamcenter system should be at same level as the Production with respect to custom configuration. If the Non-Production Teamcenter hub system to be refreshed is at lower release version compared to the Production system, then customer must provide the latest package to be deployed on the Non-Production system before the refresh activity to ensure custom config are same.	n/a	n/a
1384	TO_TC_1.1.56	Teamcenter (Single Sign On) SSO login configuration.	Additional Service	Only SAML based SSO configuration for Teamcenter is supported. Customer's SI partner must share SSO configuration document with clear steps to ECS Teamcenter team. Customer is responsible to validate and troubleshoot the SSO login scenarios and issues observed, if any. Customer is responsible for the overall SSO configuration for Teamcenter. OS access required. Assistance can be requested via task BASIC_1.1.14. Customer is responsible to provide ECS with the step by step instructions and/or documentation which is tested and verified by the customer.	n/a	n/a

Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Business Improvement Foundation	B1
1393	TO_SBPI_1.1.07	Assign Roles to Users related to Signavio Process Insights	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Business Improvement Foundation	B1
1394	TO_SBPI_1.1.08	Activate standard predefined business process Key Performance Indicators (KPIs)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Business Improvement Foundation	B1
1395	TO_SBPI_1.1.09	Configure of thresholds for standard predefined business process Key Performance Indicators (KPIs)	SAP Cloud Application Services ("CAS") available at additional charge. Needs to be performed by customer if applicable and if the SAP CAS Service is not used.		Business Improvement Foundation	B1
1396		X60 - SAProuter for Integration Scenarios				
1397		Installation and Configuration				
1398	TO_SR_1.1.01	Install SAProuter	Standard Services		n/a	n/a
1399	TO_SR_1.1.02	Configure saprouttab file	Standard Services	Configure saprouttab entries based on integration scenarios: SAP SuccessFactors Employee Central Payroll or SAP GTS SEEBURGER Cloud Integration.	n/a	n/a
1400	TO_SR_1.1.03	SAProuter availability monitoring	Standard Services		n/a	n/a
1401	TO_SR_1.1.04	Non-SNC communication monitoring	Standard Services	Communication apart from integration scenarios: SAP SuccessFactors Employee Central Payroll or SAP GTS SEEBURGER Cloud Integration will generate alert.	n/a	n/a
1402		X61 - SEEBURGER Cloud Integration for SAP Global Trade Services (GTS)				
1403		Installation and Configuration				
1404	TO_SEE_1.1.01	SEEBURGER tenant creation	Excluded Tasks	Customer must make request to the SEEBURGER Team to create tenants in the SEEBURGER Cloud. This includes coordination with the SEEBURGER team to obtain necessary IPs to be allowlisted, SNC name, and certificates, etc.	n/a	n/a
1405	TO_SEE_1.1.02	Establish communication with backend	Standard Services	Post installation of SAProuter refer TO_SR_1.1.01 and TO_SR_1.1.02. Update the SNC name and SEEBURGER IPs in saprouttab file to allow communication with backend SAP GTS system.	n/a	n/a
1406	TO_SEE_1.1.03	Establish communication between load balancer and SAProuter	Standard Services	Add SAProuter in backend pool of LoadBalancers (Application LoadBalancer & Network LoadBalancer) and allowlist the SEEBURGER tenant IPs which is provided by customer to facilitate communication. To setup LB refer to TO_LRP_1.1.01	n/a	n/a
1407	TO_SEE_1.1.04	ABAP System tasks	Excluded Tasks	Customer will be enable SNC (with recommended parameters for security hardening), creating RFC in the backend SAP GTS system and maintaining partner profiles as per business need. Customer will also update the certificates on the ABAP side received from SEEBURGER end and allow SAProuter host to register program on gateway in gateway ACL files (secinfo and reginfo). SOAManager configuration will be done by Customer. Customer should exchange ABAP system certificate with SEEBURGER and share ABAP system SNC name for the configuration. SEEBURGER Team will provide required templates.	n/a	n/a
1408		X62 - SAP SuccessFactors: Employee Central Payroll - Integration				
1409		Installation and Configuration				
1410	TO_SF_1.1.01	SAProuter Registration at SuccessFactors	Standard Services	Post SAProuter installation, create a ticket under component XX-SER-NET-NEW to register managed SAProuter. Refer to "Setting Up an SNC-Based SAProuter Connection for Employee Central Payroll Systems" guide for the template. Customer must ensure that the public IP is assigned to SAProuter via LoadBalancer.	n/a	n/a
1411	TO_SF_1.1.02	Allowlist SuccessFactors ECP IP	Standard Services	Refer to "Setting Up an SNC-Based SAProuter Connection for Employee Central Payroll Systems" guide to get the SuccessFactors ECP IP addresses based on regions.	n/a	n/a
1412	TO_SF_1.1.03	Import PSE to SAProuter	Standard Services	Download generated PSE from SAP For Me - saproutercertificate (formerly known as ONE Support Launchpad).	n/a	n/a
1413		X63 - TrendMicro SAP NetWeaver Virus Scan Interface (NW-VSI)				
1414		Installation and Configuration				
1415	TO_TMVSI_AV_1.1.01	Activate TrendMicro NW-VSI license	Additional Service	The SAP Virus Scan Interface (VSI) is the security component of the SAP NetWeaver platform. The VSI is used to secure all forms of customer content including documents, embedded images, and active content including JavaScript and scripts in PDF and Office documents.	n/a	n/a
1416	TO_TMVSI_AV_1.1.012	Configure application layer	Excluded Tasks		n/a	n/a
1417		X64 - Microsoft SQL Server				
1418		Installation and Configuration
