

IMA – Network – PQA 62917

- PROD and Non-PROD are separated with tier level subnet separation (EU West - Amsterdam)
- 10.249.186.0/23 – PROD Subnet - prod.ima.sap.allianz
- 10.249.178.0/24 – Non-PROD Subnet
 - to split in to 4x /26 for DEV, QA, SBX (Ref img)
 - dev.ima.sap.Allianz
 - qa.ima.sap.Allianz
 - si.ima.sap.Allianz
 - one /26 subnet is unused

Application and Database Layer Segmentation within tiers

- Within each Tier, all application servers would be grouped together in an ASG
- Within each Tier, all Database Server would be grouped together in an ASG
- Communication on only the known standard SAP port range(s) will be permitted between the Application and Database layer
- Note for build : Prepare NSG as usual and it will be updated later – Steven will help to get it worked out with Serv. Mgmt. team

Subject: RE: Pre Build alignment - ECS SE Ticket 21868

Dear All,

Per the customer update the summary as below with customer decision highlighted in yellow

IP Range	Purpose	Remarks	Subdomain – proposal from customer
10.249.186.0/23	IP Range for Primary site – PROD EU-West (Azure)- Amsterdam	IMA@RISE SAP Primary Prod	PROD.ima.sap.allianz
10.249.178.0/24	For Non-PROD systems (DEV, QA, Sandbox)	IMA@RISE SAP Primay Non-PRD. Manual split of 4 segments of /26 each or 1-x /25, 2x /26 – customer to confirm	dev.ima.sap.allianz si.ima.sap.allianz qa.ima.sap.allianz
10.249.188.0/23	IP Range for DR site - EU North (Azure)	IMA@RISE SAP DR Prod	

@Chawla, Varun : Based on the above I have entered in PQA, but pls check once you are back in office. Pls note the blue items for Non-PROD, I have entered both /24 and the split of this to 4 x /26 , will update per your feedback as that is comfortable for the build
